The Pragmatics of Translation Leo Hickey 1998 Pragmatics, often defined as the study of language use

and language users, sets out to explain what people wish to achieve and how they go about achieving it in using language. Such a study is clearly of direct relevance to an understanding of translation and translators. The thirteen chapters in this volume show how translation - skill, art, process and product - is affected by pragmatic factors such as the acts performed by people when they use language, how writers try to be polite, relevant and cooperative, the distinctions they make between what their readers may already know and what is likely to be new to them, what is presupposed and what is openly affirmed, time and space, how they refer to things and make their discourse coherent, how issues may be hedged or attempts made to produce in readers of the translation effects equivalent to those stimulated in readers of the original. Particular attention is paid to legal, political, humorous, poetic and other literary texts.

Constructing Cultures Susan Bassnett 1998 This collection brings together two leading figures in the discipline of translation studies. The essays cover a range of fields, and combine theory with practical case studies involving the translation of literary texts.

Affective Health and Masculinities in South Africa Hans Reihling 2020-04-24 Affective Health and

Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

Imagining Asia in the Americas Zelideth María Rivas 2016-09-16 For centuries, Asian immigrants have been making vital contributions to the cultures of North and South America. Yet in many of these countries, Asians are commonly viewed as undifferentiated racial "others," lumped together as chinos regardless of whether they have Chinese ancestry. How might this struggle for recognition in their adopted homelands affect the ways that Asians in the Americas imagine community and cultural identity? The essays in Imagining Asia in the Americas investigate the myriad ways that Asians throughout the Americas use language, literature, religion, commerce, and other cultural practices to establish a sense of community, commemorate their countries of origin, and anticipate the possibilities presented by life in

a new land. Focusing on a variety of locations across South America, Central America, the Caribbean, and the United States, the book's contributors reveal the rich diversity of Asian American identities. Yet taken together, they provide an illuminating portrait of how immigrants negotiate between their native and adopted cultures. Drawing from a rich array of source materials, including texts in Spanish, Portuguese, Korean, Japanese, Chinese, and Gujarati that have never before been translated into English, this collection represents a groundbreaking work of scholarship. Through its unique comparative approach, *Imagining Asia in the Americas* opens up a conversation between various Asian communities within the Americas and beyond.

Culture Bumps Ritva Leppihalme 1997 This work focuses on translators and readers as participants in the communicative process, where the use of allusions is one type of problem to be solved. Reader-response tests and interviews with professional translators highlight the difficulty in conveying the function and meaning of allusive passages to readers in another culture. The many examples discussed also provide materials for translation teachers wanting to address the translation of allusions in their courses.

Bound by his wheelchair and struggling to communicate with the people around him, Petey finds a way to remain kind and generous despite the horrific conditions in his new "home." Through the decades, he befriends several caretakers but is heartbroken when each eventually leaves him. Determined not to be hurt again, he vows to no longer let hope of lifelong friends and family torment him. That changes after he is moved into a nursing home and meets a young teen named Trevor Ladd; he sees something in the boy and decides to risk friendship one last time. Trevor, new to town and a bit of a loner, is at first weary of the old man in the wheelchair. But after hearing more of his story, Trevor learns that there is much more to Petey than meets the eye. *Petey* is a touching story of friendship, discovery, and the uplifting

power of the human spirit.

Expanding the Boundaries of Transformative Learning E. O'Sullivan 2016-04-30 Transformative learning involves experiencing a deep, structural shift in the basic premises of thought, feelings, and actions. It is a shift of consciousness that dramatically and permanently alters our way of being in the world. Such a shift involves our understanding of ourselves and our self-locations; our relationships with other humans and with the natural world; our understanding of relations of power in interlocking structures of class, race and gender; our body awarenesses; our visions of alternative approaches to living; and our sense of possibilities for social justice and peace and personal joy. The editors of this collection make several challenges to the existing field of transformative learning - the first is to theoreticians, who have attempted to describe the nature of transformative learning without regard to the content of transformative learning. The editors argue that transformative learning theory cannot be constructed in a content-neutral or context-free way. Their second challenge, which assumes the importance content for transformative learning, is to educators as practitioners. The editors argue that transformative learning requires new educational practices consistent with the content. Arts-based research and arts-based teaching/learning practices are one example of such new educational practices. Education for the soul, or spiritual practices such as meditation or modified martial arts or indigenous peoples' forms of teaching/learning, is another example. Each article in the collection presents a possible model of these new practices.

This Thing of Darkness Joan Neuberger 2019-03-15 Sergei Eisenstein's unfinished masterpiece, *Ivan the Terrible*, was no ordinary movie. Commissioned by Joseph Stalin in 1941 to justify state terror in the sixteenth century and in the twentieth, the film's politics, style, and epic scope aroused controversy even before it was released. In *This Thing of Darkness*, Joan Neuberger offers a sweeping account of the conception, making, and reception of *Ivan the Terrible* that weaves together Eisenstein's expansive thinking and experimental practice with a groundbreaking new view of artistic production under Stalin. Drawing on Eisenstein's unpublished production notebooks, diaries, and manuscripts, Neuberger's riveting narrative chronicles Eisenstein's personal, creative, and political challenges and reveals the ways cinematic invention, artistic theory, political critique, and historical and psychological analysis went hand in hand in this famously complex film. Neuberger's bold arguments and daring insights into every aspect of Eisenstein's work during this period, together with her ability to lucidly connect his wide-ranging late theory with his work on *Ivan*, show the director exploiting the institutions of Soviet artistic production not only to expose the cruelties of Stalin and his circle but to challenge the fundamental principles of Soviet ideology itself. *Ivan the Terrible*, she argues, shows us one of the world's greatest filmmakers and one of the 20th century's greatest artists observing the world around him and experimenting with every element of film art to explore the psychology of political ambition, uncover the history of recurring cycles of

violence and lay bare the tragedy of absolute power.

A Practical Guide for Translators Geoffrey Samuelsson-Brown 2010-03-24 This is the fifth revised edition of the best-selling A Practical Guide for Translators. It looks at the profession of translator on the basis of developments over the last few years and encourages both practitioners and buyers of translation services to view translation as a highly-qualified, skilled profession and not just a cost-led word mill. The book is intended principally for those who have little or no practical experience of translation in a commercial environment. It offers comprehensive advice on all aspects relevant to the would-be

translator and, whilst intended mainly for those who wish to go freelance, it is also relevant to the staff translator as a guide to organisation of work and time. Advice is given on how to set up as a translator, from the purchase of equipment to the acquisition of clients. The process of translation is discussed from initial enquiry to delivery of the finished product. Hints are given on how to assess requirements, how to charge for work, how to research and use source material, and how to present the finished product. Guidance is given on where to obtain further advice and professional contacts. This revised edition updates practices in the translation profession and considers the impact of web-based translation offerings. Industry and commerce rely heavily on the skills of the human translator and his ability to make intellectual decisions that is, as yet, beyond the capacity of computer-aided translation.

Interpretation James Nolan 2012-10-09 In recent decades the explosive growth of globalization and regional integration has fuelled parallel growth in multilingual conferences. Although conference interpreting has come of age as a profession, interpreter training programs have had varied success, pointing to the need for an instructional manual which covers the subject comprehensively. This book seeks to fill that need by providing a structured syllabus and an overview of interpretation accompanied by exercises in various aspects of the art. It is meant to serve as a practical guide for interpreters and as

a complement to interpreter training programs in the classroom and online, particularly those for students preparing for conference interpreting in international governmental and business settings. This expanded second edition includes additional exercises and provides direct links to a variety of web-based resources and practice speeches, also including additional language combinations.

Cultural Encounters in Translation from Arabic Said Faiq 2004 Translation is intercultural communication in its purest form. Its power in forming and/or deforming cultural identities has only recently been acknowledged, given the attention it deserves. The chapters in this unique volume assess translation from Arabic into other languages from different perspectives: the politics, economics, ethics, and poetics

of translating from Arabic; a language often neglected in western mainstream translation studies.

Queer Argentina Matthew J. Edwards 2016-11-10 Through insightful, high-paced commentary this book directs attention south, towards Argentina. Current events, political debates, and the cultural production of artists, authors and public figures, including César Aira, María Moreno, Naty Menstrual and Copi, among others, provide case studies where heterosexual social models are rejected and, in their place, queer frameworks become the preferred model for living differently. Queer Argentina traces the movements of today's marginalized communities as they pass through and choose to remain within the closet: a space that is emblematic of collective struggles in silence and community formation outside the (hetero)norm.
