Barbie Chang Victoria Chang 2018-05-01 "With astringent understatement and wry economy, with nuance and intelligence and an enviable command of syntax and poetic line, Victoria Chang dissects the venerable practices of cultural piety and self-regard. She is a master of the thumbnail narrative. She can wield a dark eroticism. She is determined to tackle subject matter that is not readily subdued to the proportions of lyric. Her talent is conspicuous."—Linda Gregerson "Chang's voice is equal parts searing, vulnerable, and terrified."—American Poets

Barbie Chang, Victoria Chang explores racial prejudice, sexual privilege, and the disillusionment of love through a reimagining of Barbie—perfect in the cultural imagination yet repeatedly falling short as she pursues the American dream. This energetic string of linked poems is full of wordplay, humor, and biting social commentary involving the quote-unquote speaker, Barbie Chang, a disillusioned Asian-American suburbanite. By turns woeful and passionate, playful and incisive, these poems reveal a voice insisting that "even silence is not silent." The Politics of Identity Michelle Harris 2013-01-01 The issue of Indigenous identity has gained more attention in recent years from social science scholars, yet much of the discussions still centre on the politics of belonging or not belonging. While these recent discussions in part speak to the complicated and contested nature of Indigeneity, both those who claim Indigenous identity and those who write about it seem to fall into a paradox of acknowledging its complexity on the one hand, while on the other hand reifying notions of 'tradition' and 'authentic cultural expression' as core features of an Indigenous identity. Since identity theorists generally agree that who we understand ourselves to be is as much a function of the time and place in which we live as it is about who we and others say we are, this scholarship does not progress our knowledge on the contemporary characteristics of Indigenous identity formations. The range of international scholars in this volume have begun an approach to the contemporary identity issues from very different perspectives, although collectively they all push the boundaries of the scholarship that relate to identities of Indigenous people in various contexts from around the world. Their essays provide at times provocative insights as the authors write about their own experiences and as they seek to answer the hard questions: Are emergent identities newly constructed identities that emerge as

a function of historical moments, places, and social forces? If so, what is it that helps to forge these identities and what helps them to retain markers of Indigeneity? And what are some of the challenges (both from outside and within groups) that Indigenous individuals face as they negotiate the line between 'authentic' cultural expression and emergent identities? Is there anything to be learned from the ways in which these identities are performed throughout the world among Indigenous groups? Indeed why do we assume claims to multiple racial or ethnic identities limits one's Indigenous identity? The question at the heart of our enquiry about the emerging Indigenous identities is when is it the right time to say me, us, we... them?

The Oxford Handbook of Propaganda Studies Jonathan Auerbach 2013 Derived from the word "to propagate," the idea and practice of propaganda concerns nothing less than the ways in which human beings communicate, particularly with respect to the creation and widespread dissemination of attitudes, images, and beliefs. Much larger than its pejorative connotations suggest, propaganda can more neutrally be understood as a central means of organizing and shaping thought and perception, a practice that has been a pervasive feature of the twentieth century and that touches on many fields. It has been seen as both a positive and negative force, although abuses under the Third Reich and during the Cold War have caused the term to stand in, most recently, as a synonym for untruth and brazen manipulation. Propaganda analysis of the 1950s to 1989 too often took the form of empirical studies about the efficacy of specific methods, with larger questions about the purposes and patterns of mass persuasion remaining unanswered. In the present moment where globalization and transnationality

are arguably as important as older nation forms, when media enjoy near ubiquity throughout the globe, when various fundamentalisms are ascendant, and when debates rage about neoliberalism, it is urgent that we have an up-to-date resource that considers propaganda as a force of culture writ large. The handbook will include twenty-two essays by leading scholars from a variety of disciplines, divided into three sections. In addition to dealing with the thorny question of definition, the handbook will take up an expansive set of assumptions and a full range of approaches that move propaganda beyond political campaigns and warfare to examine a wide array of cultural contexts and practices.

Neither Led Nor Driven Brian L. Moore 2004 An examination of the cultural evolution of the Jamaican people after the explosive uprising at Morant Bay in 1865. For the first time, the specific methods used by British imperial legislators to inculcate order, control and identity in the local society are described and analysed. The authors compellingly and convincingly demonstrate that Great Britain deliberately built a new society in Jamaica founded on principles of Victorian Christian morality and British Imperial ideology. This resulted in a sustained attack on everything that was perceived to be of African origin and the glorification of Christian piety, Victorian mores, and a Eurocentric idealized family life and social hierarchies. This well-written and meticulously researched book will be invaluable for students of the period and those interested in

Jamaican history and/or imperial history

That Winter Pamela Gillilan 1986 Pamela Gillilan was born in London in 1918, married in 1948 and moved to Cornwall in 1951. When she sat down to write her poem *Come Away* after the death of her husband David, she had written no poems for a quarter of a century. Then came a sequence of incredibly moving elegies. Other poems followed, and two years after starting to write again, she won the Cheltenham Festival poetry competition. Her first collection *That Winter* (Bloodaxe, 1986) was shortlisted for the Commonwealth Poetry Prize.

Raciolinguistics H. Samy Alim 2016-09-30 Raciolinguistics reveals the central role that language plays in shaping our ideas about race and vice versa. The book brings together a team of leading scholars-working both within and beyond the United States-to share powerful, much-needed research that helps us understand the increasingly vexed relationships between race, ethnicity, and language in our rapidly changing world. Combining the innovative, cutting-edge approaches of race and ethnic studies with fine-grained linguistic analyses, authors cover a wide range of topics including the struggle over the very term "African American," the racialized language education debates within the increasing number of "majority-minority" immigrant communities in the U.S., the dangers of multicultural education in a Europe that is struggling to meet the needs of new migrants, and the sociopolitical and cultural meanings of linguistic styles used in Brazilian favelas, South African townships, Mexican and Puerto Rican

barrios in Chicago, and Korean American "cram schools" in New York City, among other sites. Taking into account rapidly changing demographics in the U.S and shifting cultural and media trends across the globe--from Hip Hop cultures, to transnational Mexican popular and street cultures, to Israeli reality TV, to new immigration trends across Africa and Europe--Raciolinguistics shapes the future of scholarship on race, ethnicity, and language. By taking a comparative look across a diverse range of language and literacy contexts, the volume seeks not only to set the research agenda in this burgeoning area of study, but also to help resolve pressing educational and political problems in some of the most contested raciolinguistic contexts in the world.

Twelve Years a Slave Solomon Northup 2021-01-01 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Salsa Consciente Andrés Espinoza Agurto 2021-12-01 This volume explores the significations and developments of the Salsa consciente movement, a Latino musico-poetic and political discourse that exploded in the 1970s but then dwindled in momentum into the early 1990s. This movement is largely linked to the development of Nuyolatino popular music brought about in part by the mass Latino migration to New York City beginning in the 1950s and the subsequent social movements that were tied to the shifting political landscapes. Defined by its lyrical content alongside specific sonic markers and political and social issues facing U.S. Latinos and Latin Americans, Salsa consciente evokes the overarching cultural-nationalist idea of Latinidad (Latin-ness).

Through the analysis of over 120 different Salsa songs from lyrical and musical perspectives that span a period of over sixty years, the author makes the argument that the urban Latino identity expressed in Salsa consciente was constructed largely from diasporic, deterritorialized, and at times imagined cultural memory, and furthermore proposes that the Latino/Latin American identity is in part based on African and Indigenous experience, especially as it relates to Spanish colonialism. A unique study on the intersection of Salsa and Latino and Latin American identity, this volume will be especially interesting to scholars of ethnic studies and musicology alike.

Exchanging Our Country Marks Michael A. Gomez 2000-11-09 The transatlantic slave trade brought individuals from diverse African regions and cultures to a common destiny in the American South. In this comprehensive study, Michael Gomez establishes tangible links between the African American community and its African origins and traces the process by which African populations exchanged their distinct ethnic identities for one defined primarily by the conception of race. He examines transformations in the politics, social structures, and religions of slave populations through 1830, by which time the contours of a new African American identity had begun to emerge. After discussing specific ethnic groups in Africa, Gomez follows their movement to North America, where they tended to be amassed in recognizable concentrations within individual colonies (and, later, states). For this reason, he argues, it is possible to identify particular ethnic cultural influences and ensuing social

formations that heretofore have been considered unrecoverable. Using sources pertaining to the African continent as well as runaway slave advertisements, ex-slave narratives, and folklore, Gomez reveals concrete and specific links between particular African populations and their North American progeny, thereby shedding new light on subsequent African American social formation.

Richard Yates Tao Lin 2010-09-07 In a startling change of direction, cult favorite Tao Lin presents a dark and brooding tale of illicit love that is his most sophisticated and mesmerizing writing yet. Richard Yates is named after real-life writer Richard Yates, but it has nothing to do with him. Instead, it tracks the rise and fall of an illicit affair between a very young writer and his even younger--in fact, under-aged--lover. As he seeks to balance work and love, she becomes more and more self-destructive in a play for his undivided attention. His guilt and anger builds in response until they find themselves hurtling out of control and afraid to let go. Lin's trademark minimalism takes on a new, sharp-edged suspense here, zeroing in on a lacerating narrative like never before--until it is almost, in fact, too late.

Autobiografía de Un Esclavo Juan Francisco Manzano 1996 "En face bilingual edition of only extant Latin American slave narrative written during slavery era. Excellent for undergraduate classroom use. Scholars may prefer original

text"--Handbook of Latin American Studies, v. 58.

American Mirror Roberto Saba 2021-11-23 "In this book, Roberto Saba investigates how the antislavery struggle led Brazil and the United States to cooperate, and how this dynamic collaboration helped establish capitalism and free wage labor as the norm in the Western world. Drawing on overlooked writings from entrepreneurs, scientists, planters, Confederate refugees in Brazil, and journalists, Saba's extensive research reveals that while United States Southerners terrified Brazil with aggressive projects to perpetuate and expand slave labor, reform-minded Brazilians—including slaveholders looked to the American North as a powerful instrument of state- and nation-building. They welcomed advocates from the northern United States who helped them to spread labor-saving machinery, expand large-scale coffee production, advance technical education, diversify economic activities, develop urban centers, and expand transportation infrastructure. Saba shows that the binational collaboration of radical modernizers in the United States and Brazil transformed the political economy of both countries, consolidated wage labor as the dominant production system in the Western hemisphere, and laid the groundwork for the demise of Brazilian slavery and the expansion of American capitalism"--

The Elusive Quest for Growth William R. Easterly 2002-08-02 Why economists' attempts to help poorer countries improve their economic well-being have failed. Since the end of World War II, economists have tried to figure out how poor countries in the

tropics could attain standards of living approaching those of countries in Europe and North America. Attempted remedies have included providing foreign aid, investing in machines, fostering education, controlling population growth, and making aid loans as well as forgiving those loans on condition of reforms. None of these solutions has delivered as promised. The problem is not the failure of economics, William Easterly argues, but the failure to apply economic principles to practical policy work. In this book Easterly shows how these solutions all violate the basic principle of economics, that people—private individuals and businesses, government officials, even aid donors—respond to incentives. Easterly first discusses the importance of growth. He then analyzes the development solutions that have failed. Finally, he suggests alternative approaches to the problem. Written in an accessible, at times irreverent, style, Easterly's book combines modern growth theory with anecdotes from his fieldwork for the World Bank.

The Great White Way Warren Hoffman 2014-02-18 Broadway musicals are one of America's most beloved art forms and play to millions of people each year. But what do these shows, which are often thought to be just frothy entertainment, really have to say about our country and who we are as a nation? The Great White Way is the first book to reveal the racial politics, content, and subtexts that have haunted musicals for almost one hundred years from Show Boat (1927) to The Scottsboro Boys (2011). Musical

mirror their time periods and reflect the political and social issues of their day. Warren Hoffman investigates the thematic content of the Broadway musical and considers how musicals work on a structural level, allowing them to simultaneously present and hide their racial agendas in plain view of their audiences. While the musical is informed by the cultural contributions of African Americans and Jewish immigrants, Hoffman argues that ultimately the history of the American musical is the history of white identity in the United States. Presented chronologically, *The Great White Way* shows how perceptions of race altered over time and how musicals dealt with those changes. Hoffman focuses first on shows leading up to and comprising the Golden Age of Broadway (1927–1960s), then turns his attention to the revivals and nostalgic vehicles that defined the final quarter of the twentieth century. He offers entirely new and surprising takes on shows from the American musical canon—*Show Boat* (1927), *Oklahoma!* (1943), *Annie Get Your Gun* (1946), *The Music Man* (1957), *West Side Story* (1957), *A Chorus Line* (1975), and *42nd Street* (1980), among others. New archival research on the creators who produced and wrote these shows, including Leonard Bernstein, Jerome Robbins, Stephen Sondheim, and Edward Kleban, will have theater fans and scholars rethinking forever how they view this popular American entertainment.

The Englishman J. E. R. Staddon 2016 Although I have been basically an academic for most of my life, the way I got there has taken some surprising turns. The first four chapters of this memoir describe what I can remember and discover about my early life: an unsuspected ancestry, fun in WW2 London, comical schooldays, and a spell in

colonial Africa interrupting a wobbly college career at the end of which I left England for America. In the US I followed again a slightly erratic graduate-school trajectory that ended up in a Harvard basement. The main part of the book is about science, my efforts to understand the world opened up for me by biology, Darwin, the evolving cybernetic revolution and the experimental methods of influential and opinionated behaviorist B. F. Skinner. I have tried to make this part as simple and nontechnical as possible, although a couple of graphs have intruded.

Expanding the Boundaries of Transformative Learning E. O'Sullivan 2016-04-30

Transformative learning involves experiencing a deep, structural shift in the basic

premises of thought, feelings, and actions. It is a shift of consciousness that dramatically and permanently alters our way of being in the world. Such a shift involves our understanding of ourselves and our self-locations; our relationships with other humans and with the natural world; our understanding of relations of power in interlocking structures of class, race and gender; our body awarenesses; our visions of alternative approaches to living; and our sense of possibilities for social justice and peace and personal joy. The editors of this collection make several challenges to the existing field of transformative learning - the first is to theoreticians, who have attempted to describe the nature of transformative learning without regard to the content of transformative learning. The editors argue that transformative learning theory cannot be constructed in a content-neutral or context-free way. Their second challenge, which assumes the importance content for transformative learning, is to educators as practitioners. The editors argue that transformative learning requires new educational practices consistent with the content. Arts-based research and arts-based teaching/learning practices are one example of such new educational practices. Education for the soul, or spiritual practices such as meditation or modified martial arts or indigenous peoples' forms of teaching/learning, is another example. Each article in the collection presents a possible model of these new practices.

Confounding the Color Line James Brooks 2002-07-01 Confounding the Color Line is an essential, interdisciplinary introduction to the myriad relationships forged for

centuries between Indians and Blacks in North America. Since the days of slavery, the lives and destinies of Indians and Blacks have been entwined-thrown together through circumstance, institutional design, or personal choice. Cultural sharing and intermarriage have resulted in complex identities for some members of Indian and Black communities today. The contributors to this volume examine the origins, history, various manifestations, and long-term consequences of the different connections that have been established between Indians and Blacks. Stimulating examples of a range of relations are offered, including the challenges faced by Cherokee freedmen, the lives of Afro-Indian whalers in New England, and the ways in which Indians and Africans interacted in Spanish colonial New Mexico. Special attention is given to slavery and its continuing legacy, both in the Old South and in Indian Territory. The intricate nature of modern Indian-Black relations is showcased through discussions of the ties between Black athletes and Indian mascots, the complex identities of Indians in southern New England, the problem of Indian identity within the African American community, and the way in which today's Lumbee Indians have creatively engaged with African American church music. At once informative and provocative, *Confounding the Color Line* sheds valuable light on a pivotal and not well understood relationship between these communities of color, which together and separately have affected, sometimes profoundly, the course of American history.

Oil and Revolution in Mexico Jonathan Charles Brown 1993 This book shatters many

misconceptions about foreign investment in Latin America. Viewing the foreign investor as neither cruel oppressor nor friendly benefactor, Jonathan Brown shows that the dynamic growth of the Mexican oil industry resulted from both the infusion of external capital and Mexico's own economic restructuring - conditions similar to those under which free markets are today being revived throughout the hemisphere. Brown's voluminous research into the operations of the British and American oil companies in Mexico between 1880 and 1920 reveals their involvement in the political and social breakdown that led the country to revolution in 1910. Brown weaves a fascinating, sometimes exciting story out of the complicated maneuverings among oilmen, politicians, diplomats, and workers in a period of massive social upheaval. Oil companies brought capital, technology, and jobs to Mexico, but they also threatened its deeply rooted social heritage. Brown shows that the Mexican response to this double-edged situation was far more effective than has been recognized. Mexicans of all classes sought to impose their own traditions on the powerful companies, if only to prevent modern capitalism from destroying Mexico's political and social structure. Their success was remarkable. Lively provocative but evenhanded, with darts of wry humor, *Oil and Revolution in Mexico* will engage a wide variety of readers: business, economic, political, labor, and social historians and students of Latin America, revolutions, foreign investment, and international relations.

The White Man's Burden William Easterly 2006 Argues that western foreign aid efforts

have done little to stem global poverty, citing how such organizations as the International Monetary Fund and the World Bank are not held accountable for ineffective practices that the author believes intrude into the inner workings of other countries. By the author of *The Elusive Quest for Growth*. 60,000 first printing.

Teaching Translation LAWRENCE VENUTI 2016-08-05 Over the past half century, translation studies has emerged decisively as an academic field around the world, and in recent years the number of academic institutions offering instruction in translation has risen along with an increased demand for translators, interpreters and translator trainers. *Teaching Translation* is the most comprehensive and theoretically informed overview of current translation teaching. Contributions from leading figures in translation studies are preceded by a substantial introduction by Lawrence Venuti, in which he presents a view of translation as the ultimate humanistic task – an interpretive act that varies the form, meaning, and effect of the source text. 26 incisive chapters are divided into four parts, covering: certificate and degree programs teaching translation practices studying translation theory, history, and practice surveys of translation pedagogies and key textbooks The chapters describe long-standing programs and courses in the US, Canada, the UK, and Spain, and each one presents an exemplary model for teaching that can be replicated or adapted in other institutions. Each contributor responds to fundamental questions at the core of any translation course – for example, how is translation defined? What qualifies students for admission to the

course? What impact does the institutional site have upon the course or pedagogy? Teaching Translation will be relevant for all those working and teaching in the areas of translation and translation studies. Additional resources for Translation and Interpreting Studies are available on the Routledge Translation Studies Portal.

A Small Story about the Sky Alberto Ríos 2016-06-13 "Ríos evokes the mysterious and unexpected forces that dwell inside the familiar."—The Washington Post "Ríos delivers another stunning book of poems, rich in impeccable metaphors, that revel in the ordinariness of morning coffee and the crackle of thunderous desert storms. In one sonnet, Ríos addresses injustice in the borderlands, capturing with mathematical precision the everyday struggles that many migrants face—'The border is an equation in search of an equals sign.' A series of sonnets about desert flora abounds with fantastic, magical imagery—'Bougainvilleas do not bloom—they bleed' and 'Apricots are eggs laid in trees by invisible golden hens.' Likewise, Ríos's bestiary sonnets overflow with inimitable similes, worthy of a book unto themselves—'Minnows are where a river's leg has fallen asleep' and 'Gnats are sneezes still flying around.' This robust volume is the perfect place to start for readers new to Ríos and a prize for seasoned fans."—Booklist In his thirteenth book, Alberto Ríos casts an intense desert light on the rich stories unfolding along the Mexico-US border. Peppered with Spanish and touches of magical realism, ordinary life and its simple props—morning showers,

spilled birdseed, winter lemons—becomes an exploration of mortality and humanity, and the many possibilities of how lives might yet be lived. Mad Honey Made from magnificent rhododendron, poisonous rhododendron, Very difficult-to-pronounce rhododendron—whatever Rhododendron even is—I would have to look it up myself, This word sounding puffed up, peacocky with its Indianapolisly-long spelling, all those letters moving in and out. But the plant itself, the plant and the bees that find it: The bees see in its purple flower, first, a purple flower. They do not spell it. They do not live in fear of quizzes, Purple offering what it has to offer, unapologetic, without further Definition, purple irresistible to the artist's and to the bee's eye— Who can blame either one this first-grade impulse toward love? Purple, always wearing something low-cut . . . Alberto Rios is the Poet Laureate of Arizona and host of the PBS program Books & Co. He was a finalist for the National Book Award for his poetry volume The Smallest Muscle in the Human Body. He teaches at Arizona State University and lives in Chandler, Arizona.

Teaching Translation from Spanish to English Allison Beeby Lonsdale 1996 While many professional translators believe the ability to translate is a gift that one either has

or does not have, Allison Beeby Lonsdale questions this view. In her innovative book, she demonstrates how teachers can guide their students by showing them how insights from communication theory, discourse analysis, pragmatics, and semiotics illuminate the translation process. Challenging long-held assumptions, she establishes a fascinating framework on which to base the structure of a professional prose-translation class. Her original contributions to the question of directionality and to the specific strategies of translating are applicable to not only the teaching of translation from Spanish to English, but to other teaching situations and to other pairs of languages as well. She also reviews the latest attempts in translation theory to define and contextualize ideal translator competence, student translator competence, and general translation strategies. Beeby Lonsdale completes her book by applying her conclusions to selecting and organizing the content of teaching translation from Spanish to English. She illustrates one or more of the basic translation principles through 29 teaching units, which are prefaced by objectives, tasks, and commentaries for the teacher, and through 48 task sheets, which show how to present the material to students.
