In Oshaantu, a place where women are the backbone of the home but are expected to submit to patriarchal dominance, Mee Ali is happily married. Her friend, Kauna, however, suffers at the hands of an abusive husband. When he is found dead at home, many of the villagers suspect her of poisoning him. Backtracking from that time, the novel, with its universal appeal, reveals the value of friendships, some of which are based on tradition while others grow out of strength of character, respect, and love.

Chinese Policing Kam C. Wong 2009 This book documents a systematic investigation into various aspects of policing in the People's Republic of China, including its scholarship, idea, origin, history, education, culture, reform, and theory. It approaches the study of Chinese policing from an indigenous perspective, informed by local empirical data. In proposing an innovative theory of community policing entitled «Police Power as a Social Resource Theory», the book seeks to look at crime as a personal problem, and police as a social resource, from the perspective of the people and not the state.

One Nation Under God One Nation In Submission One Nation in Al-Islam The Rapping Imam John-Hassan Jor'dan 2010-06-25 This book is dedicated to those who have struggled for thousands of years trying to maintain their God given nature through freedom, justice and equality. Prophet Adam, Moses, Abraham, Jesus and Prophet Muhammad the last, and all the Prophets and messengers in between (may peace and blessing be upon them) If we are believers in the Prophethood we become sons and daughters within the Holy Family, those dedicated carriers of the Covenants of God under the banner of Freedom, Justice and Equality do so that we may inherit God's truth as he gave it, to protect us from lies, weak ideas and bad habits, both inside and outside of ourselves. The manipulators of our society are those human beings who take advantage of our weaknesses with structured programs. They are dummifying us down getting God out the mind, to gain control over the masses. This article came to me by angelic forces. I was walking toward my back door and just as I was about to take a step up a section from the "FINAL CALL NEWSPAPER" flew in front of me, landed upside the door. The wind holding it there, I pick it up and this is the article, satan himself; Mr. Berry Esq. Standing before the Virginia house of delegates January 20, 1832. He made it clear, how to manipulate slaves (a mass of people) he related, pass as severe laws as you will to keep these unfortunate creatures in ignorance (no God in the pledge, no moment of silence in schools, keep the ten commandments out of sight, Jesus is god etc.) it is vain, unless you can extinguish that spark of intellect which God has given them.. Sir! We have as far as possible, closed every avenue by which light (knowledge and understanding) might enter their minds. We have only to go one step further, to extinguish the capacity to see the light (of God's word) and our work will be completed. They would then be reduced to the level of the beast in the fields (a menace to themselves and society) and if they continue along that line, black people (or the masses) will be in a condition that they could never come out of (that's what they think! Yes we can! With God's help). Comments in parenthesis by Imam John-Hassan Jor'dan / Ministry of Defense

Songs for a Savior David M. Oliver 2003-07-01 This comprehensive resource of five sermons with complete worship services provides a solid, thematically integrated worship and preaching program for Advent and Christmas Eve. It celebrates the deep songs of faith that result from personal encounters with Jesus Christ. The four Advent messages examine biblical personalities, revealing in their experiences real struggles as well as profound joy. You'll explore how Zechariah wrestled to believe what the angel told him concerning the birth of his son; how the prophets searched for God's Word of hope in times of personal and social ferment; how Mary was willing to sacrifice her life for God's purpose; and how the birth of Jesus, heralded by the angels and confirmed by the shepherds, combined fear and joy with divine music. In the final sermon (for Christmas Eve), Oliver links those accounts with our contemporary lives by asking what our personal response will be to the birth of the Savior. Will we allow a song of faith to arise in our lives, in our families, churches, and community? Illustrated with poignant stories and anecdotes, the sermons in "Songs For A Savior" invite us to hear again the truly good news -- that our song of faith is not so much what we create for God, as how we respond to meeting the Savior and receiving God's gift of salvation through Jesus. "Songs For A Savior" comes from the heart of one who knows the Savior. Oliver offers these worship resources from his years of helping persons discover the Savior. The liturgies develop a theme for each Sunday, and the sermons weave biblical truths into the complexities of our modern lives, enabling new insights and personal convictions. Congregations experiencing Songs For A Savior will grow in their commitment to love and serve the Savior!" William R. Harvey Pastor Emeritus, Church of the Savior Canton, Ohio David M. Oliver holds an M.Div. degree from Duke University Divinity School and a D.Min. degree in Spiritual Formation from Asbury Theological Seminary. Currently the pastor of First United Methodist Church in Dover, Ohio, Oliver has served churches in Ohio since 1980, and has participated in the Academy for Preaching. In addition, he is an adjunct professor at Malone College in Canton, Ohio, teaching in the field of spiritual growth and worship. He is the author of "Gifts We Bring To Honor The King" (CSS).

Beneath the Bonfire Nickolas Butler 2015-05-05 Nickolas Butler's debut novel, Shotgun Lovesongs, has become an international bestseller and won numerous accolades, including France's Prix PAGE/America. Now, in Beneath the Bonfire, he demonstrates his talent for portraying "a place and its people with such love that you'll find yourself falling for them, too" (Josh Weil, author of The Great Glass Sea). A group of men spend a weekend hunting for mushrooms in the wilderness where they grew up and where some still find themselves trapped. An aging environmentalist takes out his frustration and anger on a singular, unsuspecting target. One woman helps another get revenge against a man whose crime extends far beyond him to an entire community. Together, the ten stories in this dazzling, surprising collection evoke a landscape that will be instantly recognizable to anyone who has traveled the back roads and blue highways of America, and they completely capture the memorable characters who call it home.

The Evolution of American Urban Society Howard P. Chudacoff 1981 In over three centuries of growth and change, American cities have exerted forces that have been both centrifugal -- pulling people, resources, and interest toward them -- and centripetal -- sending out goods, services, and ideas. The story of how these forces evolved over time encompasses almost every aspect of American history. Always cognizant of change over time, this book explores the ways that urban development influenced people's lives and on the ways people shaped the urban environment. A city is simultaneously a social, economic, and political entity, and Howard P. Chudacoff and Judith E. Smith have taken care to examine each of these dimensions of urban life. Their focus is on urban society: its institutions, its activities, and, especially, its people. In this, the Sixth Edition, Chudacoff and Smith pay particular attention to issues of race, ethnicity, gender, the built environment, regional differentials, and emerging cultural forms such as rock and rap music. New material has been added on the environmental impact of cities and suburbs and on the new racial and ethnic mix produced by the most recent immigration trends. In addition, the final chapter has been expanded to take into account

issues relating to the presidential administration of George W. Bush and to the consequences of the terrorist attacks of September 11, 2001. Book jacket.

From Palestine to America Taher Dajani 2008 Taher Dajani remembers playing soccer with his neighborhood friends in his idyllic city of Jaffa, Palestine. But on April 24, 1948, when Taher was fourteen, his carefree lifestyle came to an abrupt end. His family, with little money and few possessions, escaped the city by sea in a crowded fishing trawler as Zionist militia encircled Jaffa. Taher's father believed the family was in danger, so overnight they became refugees. The family took refuge in Syria and later in Libya, which enabled them to rebuild their lives. They experienced grief at leaving a place they loved and felt a great sense of loss and displacement, but with perseverance the Dajanis began anew. From Palestine to America describes the family's experiences and their determination. Taher Dajani writes this memoir about his new life after leaving his beloved Jaffa from his days as a college student in Chicago to his work with the central bank in Libya and his position with the International Monetary Fund in Washington DC. Even though it has been sixty years since the Dajani family were forced to flee Palestine, they remember their heritage and roots, and Jaffa, Palestine, will forever be in their hearts.

Lessons Learned from the Fukushima Nuclear Accident for Improving Safety of U.S. Nuclear Plants National Research Council (U.S.). Committee on Lessons Learned from the Fukushima Nuclear Accident for Improving Safety and Security of U.S. Nuclear Plants 2014-10-29 The March 11, 2011, Great East Japan Earthquake and tsunami sparked a humanitarian disaster in northeastern Japan. They were responsible for more than 15,900 deaths and 2,600 missing persons as well as physical infrastructure damages exceeding \$200 billion. The earthquake and tsunami also initiated a severe nuclear accident at the Fukushima Daiichi Nuclear Power Station. Three of the six reactors at the plant sustained severe core damage and released hydrogen and radioactive materials. Explosion of the released hydrogen damaged three reactor buildings and impeded onsite emergency response efforts. The accident prompted widespread evacuations of local populations, large economic losses, and the eventual shutdown of all nuclear power plants in Japan. "Lessons Learned from the Fukushima Nuclear Accident for Improving Safety and Security of U.S. Nuclear Plants" is a study of the Fukushima Daiichi accident. This report examines the causes of the crisis, the performance of safety systems at the plant, and the responses of its operators following the earthquake and tsunami. The report then considers the lessons that can be learned and their implications for U.S. safety and storage of spent nuclear fuel and high-level waste, commercial nuclear reactor safety and security regulations, and design improvements. "Lessons Learned" makes recommendations to improve plant systems, resources, and operator training to enable effective ad hoc responses to severe accidents. This report's recommendations to incorporate modern risk concepts into safety regulations and improve the nuclear safety culture will help the industry prepare for events that could challenge the design of plant structures and lead to a loss of critical safety functions. In providing a broad-scope, high-level examination of the accident, "Lessons Learned" is meant to complement earlier evaluations by industry and regulators. This in-depth review will be an essential resource for the nuclear power industry, policy makers, and anyone interested in the state of U.S. preparedness and response in the face of crisis situations.
