Rhythms of the Afro-Atlantic World Ifeoma C Nwankwo 2010-11-22 "Collecting essays by fourteen expert contributors into a trans-oceanic celebration and critique, Mamadou Diouf and Ifeoma Kiddoe Nwankwo show how music, dance, and popular culture turn ways of remembering Africa into African ways of remembering. With a mix of Nuyorican, Cuban, Haitian, Kenyan, Senegalese, Trinidagonian, and Brazilian beats, Rhythms of the Afro-Atlantic World proves that the pleasures of poly-rhythm belong to the realm of the discursive as well as the sonic and the kinesthetic." ---Joseph Roach, Sterling Professor of Theater, Yale University "As necessary as it is brilliant, Rhythms of the Afro-Atlantic World dances

across, beyond, and within the Black Atlantic Diaspora with the aplomb and skill befitting its editors and contributors." --- Mark Anthony Neal, author of *Soul Babies: Black Popular Culture and the Post-Soul Aesthetic* Along with linked modes of religiosity, music and dance have long occupied a central position in the ways in which Atlantic peoples have enacted, made sense of, and responded to their encounters with each other. This unique collection of essays connects nations from across the Atlantic---Senegal, Kenya, Trinidad, Cuba, Brazil, and the United States, among others---highlighting contemporary popular, folkloric, and religious music and dance. By tracking the continuous reframing, revision, and erasure of aural, oral, and corporeal traces, the contributors to *Rhythms of the Afro-Atlantic World* collectively argue that music and dance are the living evidence of a constant (re)composition and (re)mixing of local sounds and gestures. *Rhythms of the Afro-Atlantic World* distinguishes itself as a collection focusing on the circulation of cultural forms across the Atlantic world, tracing the paths trod by a range of music and dance forms within, across, or beyond the variety of locales that constitute the Atlantic world. The editors and contributors do so, however, without assuming that these paths have been either always in line with national, regional, or continental boundaries or always transnational, transgressive, and perfectly hybrid/syncretic. This collection seeks to reorient the discourse on cultural forms moving in the Atlantic world by being attentive to the specifics of the forms---their specific geneses, the specific uses to which they are put by their creators and consumers, and the specific ways in which they travel or churn in place. Mamadou Diouf is Leitner Family Professor of African Studies, Director of the Institute of African Studies, and Professor of History at Columbia University. Reminiscences of a Ranger, Or, Early Times in Southern California Horace Bell 1881 Horace Bell (1830-1918) left Indiana to seek gold in California. In 1852, he moved to Los Angeles and later became involved in American filibustering in Latin America and saw service in the Union Army before returning to Los Angeles after the Civil War to become a lawyer and newspaper publisher. *Reminiscences of a ranger* (1881) includes anecdotes of Bell's experiences as a Los Angeles Ranger pursuing Joaquin Murietta in 1853, a soldier of fortune in Latin America, a Union officer in the Civil War, and a Los Angeles newspaper editor. He provides lively anecdotes of Los Angeles and its residents under Mexican and American rule, emphasizing cowboys and criminals and native Americans. Throughout, Bell gives special attention to the fate of Hispanic Californians and Native Americans under the United States regime. For another collection of Bell's reminiscences, see *On the old west coast* (1930).

Brands of Faith Mara Einstein 2007-09-14 In a society overrun by commercial clutter, religion has become yet another product sold in the consumer marketplace, and faiths of all kinds must compete with a myriad of more entertaining and more convenient leisure activities. Brands of Faith argues that in order to compete effectively faiths have had to become brands – easily recognizable symbols and spokespeople with whom religious prospects can make immediate connections. Mara Einstein shows how religious branding has expanded over the past twenty years to create a blended world of commerce and faith where the sacred becomes secular and the secular sacred. In a series of fascinating case studies of faith brands, she explores the significance of branded church courses, such as Alpha and The Purpose Driven Life, mega-churches, and the popularity of the televangelist Joel Olsteen and television presenter Oprah Winfrey, as well as the rise of Kaballah. She asks what the consequences of this religious marketing will be, and outlines the possible results of religious commercialism – good and bad. Repackaging religion – updating music, creating teen-targeted bibles – is justifiable and necessary. However, when the content becomes obscured, religion may lose its unique selling proposition – the very ability to raise us above the market.

Future Babble Dan Gardner 2010-10-12 In 2008, as the price of oil surged above \$140 a barrel, experts said it would soon hit \$200; a few months later it plunged to \$30. In 1967, they said the USSR would have one of the fastest-growing economies in the year 2000; in 2000, the USSR did not exist. In 1911, it was pronounced that there would be no more

wars in Europe; we all know how that turned out. Face it, experts are about as accurate as dart-throwing monkeys. And yet every day we ask them to predict the future — everything from the weather to the likelihood of a catastrophic terrorist attack. *Future Babble* is the first book to examine this phenomenon, showing why our brains yearn for certainty about the future, why we are attracted to those who predict it confidently, and why it's so easy for us to ignore the trail of outrageously wrong forecasts. In this fast-paced, example-packed, sometimes darkly hilarious book, journalist Dan Gardner shows how seminal research by UC Berkeley professor Philip Tetlock proved that pundits who are more famous are less accurate — and the average expert is no more accurate than a flipped coin. Gardner also draws on current research in cognitive psychology, political science, and behavioral economics to discover something quite reassuring: The future is always uncertain, but the end is not always near.

Pentecostal Mission and Global Christianity Wonsuk Ma 2014-11-05 Although Pentecostalism worldwide represents the most rapidly growing missionary movement in Christian history, scholars from within and outside the movement have only recently begun academic reflection on the mission. This volume represents the coming of age of emerging scholarship on various aspects of the Pentecostal mission, including theological, historical, strategic, and practical aspects. The more than twenty authors from all five continents, men and women, academics, mission leaders, and practitioners, offer exciting perspectives on Pentecostal movements' contributions to the search of Christian unity in various global contexts. "The Era of the Holy Spirit has arrived! Within the century since Edinburgh 1910, Pentecostal Christianity has grown to half a billion constituents, predominantly in the global South. Pentecostal mission's unique contribution to global Christianity is undeniable and the Edinburgh 2010 conference recognized it. *Pentecostal Mission and Global Christianity*, in my view, is the most comprehensive treatment of a multidimensional and complex global Christian movement. This is a must read for anyone, scholar and lay Christian alike, who wishes to understand the wondrous phenomenon of contemporary Christianity." --Tetsunao Yamamori, Senior Fellow, Center for Religion and Civic Culture, University of Southern

California ""Since its inception during the early twentieth century, Spirit-empowered mission has been a vital force in the spread of the global Pentecostal movement. Although scholars of late have noted Pentecostalism's phenomenal growth, they have focused primarily on its structural adaptations and acculturations while neglecting the pneumatological dimension. This excellent collection of articles moves beyond the shell of Pentecostal growth to the heart of the phenomenon. Without dismissing the problems that arise when religious experience is a propelling social force, taken together the contributed articles offer an illuminating portrait of the way Spirited mission is changing the face of global Christianity." --Margaret M. Rio 2016 Andrew Zimbalist 2017-09-12 A clear-eyed, critical examination of the social, political, and economic costs of hosting the 2016 summer Olympics The selection of Rio de Janeiro as the site of the summer 2016 Olympic Games set off jubilant celebrations in Brazil—and created enormous expectations for economic development and the advancement of Brazil as a major player on the world stage. Although the games were held without major incident, the economic, environmental, political, and social outcomes for Brazil ranged from disappointing to devastating. Corruption scandals trimmed the fat profits that many local real estate developers had envisioned, and the local government was driven into bankruptcy. At the other end of the economic spectrum, some 77,000 residents of Rio's poorest neighborhoods—the favelas—were evicted and forced to move, in many cases as far as 20 or 30 miles to the west. Hosting the games ultimately cost Brazil \$20 billion, with little positive to show for the investment. Rio 2016 assembles the views of leading experts on Brazil and the Olympics into a clear-eyed assessment of the impact of the games on Brazil in general and on the lives of Cariocas, as Rio's residents are known. Edited by sports economist Andrew Zimbalist, the other contributors include Juliana Barbassa, Jules Boykoff, Jamil Chade, Stephen Essex, Renata Latuf, and Theresa Williamson.

Indigenous Amazonia, Regional Development and Territorial Dynamics Walter Leal Filho 2020-08-04 This book brings together a valuable collection of case studies and conceptual approaches that outline the present state of Amazonia in the 21st century. The many problems are described and the benefits, as well as the achievements of regional development are also discussed. The book focuses on three themes for discussion and recommendations: indigenous peoples, their

home (the forest), and the way(s) to protect and sustain their natural home (biodiversity conservation). Using these three themes this volume offers a comprehensive critical review of the facts that have been the reality of Amazonia and fills a gap in the literature. The book will appeal to scholars, professors and practitioners. An outstanding group of experienced researchers and individuals with detailed knowledge of the proposed themes have produced chapters on an array of inter-related issues to demonstrate the current situation and future prospects of Amazonia. Issues investigated and debated include: territorial management; indigenous territoriality and land demarcation; ethnodevelopment; indigenous higher education and capacity building; natural resource appropriation; food security and traditional knowledge; megadevelopmental projects; indigenous acculturation; modernization of Amazonia and its regional integration; anthropogenic interventions; protected areas and conservation; political ecology; postcolonial issues, and the sustainability of Amazonia.

Praying the Lord's Prayer for Spiritual Breakthrough Elmer L. Towns 1997-11-15 Towns reveals the power of prayer in this fascinating look at the Lord's Prayer. Each chapter examines a line from the prayer, revealing power points for every believer desiring a more dynamic prayer life. Towns says: "What would you say if you were ushered into the throne room of God with only one minute to request everything you needed, but didn't know how to put it into words? The Lord's Prayer includes everything you need to ask when you talk to God . . . it is a model prayer that teaches us how to pray."

The Seafarer's Mind Martin Otto 2020-05-19 The Seafarer's Mind is a wonderful resource for seafarers. The book is rich in narrative and case studies and covers a wide range of issues and challenges facing sailors on the high seas. A hard hitting account which unpacks the realities of a modern version of indentured labour, the author provides hope in the often harsh world of seafaring. This is a practical guide to living in isolating and confined situations where temptations abound and moral compasses are often abandoned. Martin Otto is the world's leader in serving seafarers through his international mission work. He is to be commended for being God's advocate in such an insightful, humble and practical manner. This book will become a widely read text and is sure to become a key reference for all seafarers seeking to live a Godly life in an often harsh and unforgiving environment. I recommend it wholeheartedly. Professor Ross Dowling AM Global Cruise Ship Lecturer Perth, Australia

Interpretation James Nolan 2012-10-09 In recent decades the explosive growth of globalization and regional integration has fuelled parallel growth in multilingual conferences. Although conference interpreting has come of age as a profession, interpreter training programs have had varied success, pointing to the need for an instructional manual which covers the

subject comprehensively. This book seeks to fill that need by providing a structured syllabus and an overview of interpretation accompanied by exercises in various aspects of the art. It is meant to serve as a practical guide for interpreters and as a complement to interpreter training programs in the classroom and online, particularly those for students preparing for conference interpreting in international governmental and business settings. This expanded second edition includes additional exercises and provides direct links to a variety of web-based resources and practice speeches, also including additional language combinations.

Cybernetic Revolutionaries Eden Medina 2014-01-10 A historical study of Chile's twin experiments with cybernetics and socialism, and what they tell us about the relationship of technology and politics. In *Cybernetic Revolutionaries*, Eden Medina tells the history of two intersecting utopian visions, one political and one technological. The first was Chile's experiment with peaceful socialist change under Salvador Allende; the second was the simultaneous attempt to build a computer system that would manage Chile's economy. Neither vision was fully realized—Allende's government ended with a violent military coup; the system, known as Project Cybersyn, was never completely implemented—but they hold lessons for today about the relationship between technology and politics. Drawing on extensive archival material and interviews, Medina examines the cybernetic system envisioned by the Chilean government—which was to feature holistic system design, decentralized management, human-computer interaction, a national telex network, near real-time control of the growing industrial sector, and modeling the behavior of dynamic systems. She also describes, and documents with photographs, the network's Star Trek-like operations room, which featured swivel chairs with armrest control panels, a wall of screens displaying data, and flashing red lights to indicate economic emergencies. Studying project Cybersyn today helps us understand not only the technological ambitions of a government in the midst of political change but also the limitations of the Chilean revolution. This history further shows how human attempts to combine the political and the technological with the goal of creating a more just society can open new technological, intellectual, and political possibilities. Technologies, Medina writes, are historical texts; when we read them we are reading history.

Why You Have Not Committed the Unforgivable Sin Jeremy Myers 2012-06-12 Most Christians have wondered at one time or another if they have committed the unpardonable sin. If this is your fear, be encouraged. You have not committed the unforgivable sin. You are not eternally damned. You are not forsaken by God. You are not hated by God. You are not

outside the bounds of His love and grace. Quite to the contrary, you are loved by God more than you possibly know. You are forgiven. You are accepted. In this book, Jeremy Meyers shows why you have not committed the unforgivable sin. He surveys the various views about blasphemy against the Holy Spirit and examines Matthew 12:31-32 to show what Jesus meant when He talked about blasphemy against the Holy Spirit.

Drummin' Men Burt Korall 2004-07-29 Burt Korall is widely recognized as the most authoritative writer on jazz drumming. His first book Drummin' Men--The Heartbeat of Jazz: The Swing Era is considered a classic. Now, in this exciting sequel, Korall offers a richly informative history of drumming in the Bebop era. Korall looks at this music through the eyes of the musicians themselves, covering a whole range of important jazz drummers, but focusing upon the most original and significant--principally Kenny Clarke, Max Roach, and Art Blakey. Korall provides a knowledgeable background about the history of bebop--and the unfortunate and almost universal heroin addiction that swept through the jazz world in the wake of Charlie Parker's habit. The book contains Korall's own memoir of nearly 50 years in the jazz world, linked by his narrative of the careers of these drummers and their place in the bebop jazz scene.
