Handbook of Veterinary Neurology,

5th Ed

Electrochemotherapy in Veterinary Oncology. Electrochemotherapy in veterinary oncology is used with two chemotherapeutic drugs, cisplatin and bleomycin. For the treatment of dogs and horses, mainly cisplatin is used in combination with electric pulses, while for the use in cats, since cisplatin is contraindicated, bleomycin is the drug of choice.

Low-cost eBooks. The Educational Resources Department at the University of Georgia College of Veterinary Medicine has created a number of interactive eBooks on topics that veterinary students commonly struggle to envision. The price of these eBooks vary from free to \$3.99 through the eBooks Store.
