Affective Health and Masculinities in South Africa Hans Reihling 2020-04-24

Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from

various disciplines including anthropology, gender studies, African studies, psychology, and global health.

Petey (new cover) Ben Mikaelson 2010-06-22 In 1922, at the age of two, Petey's distraught parents commit him to the state's insane asylum, unaware that their son is actually suffering from severe cerebral palsy. Bound by his wheelchair and struggling to communicate with the people around him, Petey finds a way to

remain kind and generous despite the horrific conditions in his new "home." Through the decades, he befriends several caretakers but is heartbroken when each eventually leaves him. Determined not to be hurt again, he vows to no longer let hope of lifelong friends and family torment him. That changes after he is moved into a nursing home and meets a young teen named Trevor Ladd; he sees something in the boy and decides to risk friendship one last time. Trevor, new to town and a bit of a loner, is at first weary of the old man in the wheelchair. But after hearing more of his story, Trevor learns that there is much more to Petey than meets the eye. Petey is a touching story of friendship, discovery, and the uplifting power of the human spirit.

The Tiger's Daughter Bharati Mukherjee 1996 Born in Calcutta and schooled in Poughkeepsie, Madison, Manhattan, beautiful, luminous Tara leaves her American husband behind as she journeys back to India. But the Calcutta she finds on her return -- seething with strikes, riots, and unrest -- is vastly different from the place she remembers. In this taut, ironic tale of colliding cultures, Tara seeks to reconcile the old world -- that of her father, the redoubtable Bengal Tiger -- and the brash new one that is being so violently ushered in. In this, her first novel, Mukherjee claimed as her subject the shock, uneasiness, and haphazard transformation that are part of the immigrant experience -- a theme she has masterfully woven into her subsequent novels, Wife and Jasmine, and into The Middleman and Other Stories, for which she won the National Book Critics Circle Award.

How Schools Work Rebecca Barr 1983 As budgets tighten for school districts, a sound understanding of just how teaching and administration translate into student learning becomes increasingly important. Rebecca Barr, a researcher of classroom instruction and reading skill development, and Robert Dreeben, a sociologist of education who analyzes the structure of organizations, combine their expertise to explore the social organization of schools and classrooms, the division of labor, and the allocation of key resources. Viewing schools as part of a social

organization with a hierarchy of levels—district, school, classroom, instructional group, and students—avoids the common pitfalls of lumping together any and all possible influences on student learning without regard to the actual processes of the classroom. Barr and Dreeben systematically explain how instructional groups originate, form, and change over time. Focusing on first grade reading instruction, their study shows that individual reading aptitude actually has little direct relation to group reading achievement and virtually none to the coverage of reading materials once the mean aptitude of groups is taken into consideration. Individual aptitude, they argue, is rather the basis on which teachers form reading groups that are given different instructional treatment. It is these differences in group treatment, they contend, that explain substantial differences in learning curricular material.

Shooting Incident Reconstruction Michael G. Haag 2011-06-29 Forensic scientists, law enforcement, and crime scene investigators are often tasked with reconstruction of events based on crime scene evidence, and the subsequent analysis of that evidence. The use and misuse of firearms to perpetrate crimes from theft to murder necessitates numerous invitations to reconstruct shooting incidents. The discharge of firearms and the behavior of projectiles create many forms of physical evidence that, through proper testing and interpretation by a skilled forensic scientist, can establish what did and what did not occur. This book is generated from the authors' numerous years of conducting courses and seminars on the subject of shooting incident reconstruction. It seeks to thoroughly address matters from simple to complex in providing the reader an explanation of the factors surrounding ballistics, trajectory, and shooting scenes. The ultimate objectives of this unique book are to assist investigators, crime scene analysts, pathologists, ballistics experts, and lawyers to understand the terminology, science, and factors involved in reconstructing shooting incident events to solve forensic cases. The book will cover the full range of related topics including the range from which a firearm was discharged, the sequence of shots in a multiple

discharge shooting incident, the position of a firearm at the moment of discharge, the position of a victim at the moment of impact, the probable flight path of a projectile, the manner in which a firearm was discharged and much more. Written by the most well-respected shooting scene and ballistics experts in the world Contains over 200 full-color diagrams and photographs that support and illustrate key concepts Case studies illustrate real-world application of technical concepts Explorations in Typography Carolina de Bartolo 2019-08-31 Paperback edition Bohemian Paris Dan Franck 2007-12-01 “[An] epic account of life and loves among artists and writers in Paris from belle époque to world slump” (William Feaver, *The Spectator*). A legendary capital of the arts, Paris hosted some of the most legendary developments in world culture—particularly at the beginning of the twentieth century, with the flowering of fauvism, cubism, dadaism, and surrealism. In *Bohemian Paris*, Dan Franck leads us on a vivid and magical tour of the Paris of 1900–1930, a hotbed of artistic creation where we encounter Apollinaire, Modigliani, Cocteau, Matisse, Picasso, Hemingway, and Fitzgerald, working, loving, and struggling to stay afloat. Sixteen pages of black-and-white illustrations are featured. “Franck spins lavish historical, biographical, artistic, and even scandalous details into a narrative that will captivate both serious and casual readers . . . Mary Ann Carroll Gary Monroe 2014-09-01 “Here, Monroe tells perhaps his most compelling tale of all—about the only Highwaywoman, Mary Ann Carroll.”—Jeff Klinkenberg, author of *Alligators in B-Flat* “A tale of triumph, of personal survival, of discipline, and finally, of faith.”—Linda Hudson, mayor, Fort Pierce, Florida “An inspiring story of how one African-American woman artist not only survived a man's world but also did it during the long storm of a racist climate.”—Ginger Smith Baldwin, senior legislative assistant, Florida Senate “A great read of an inspiring story about a woman of faith, character and drive. Mr. Monroe captures the essence of the Highwaymen's art, Mary Ann Carroll's life, and the entrepreneurial spirit that helped Carroll succeed in a racially charged environment.”—Tom Wagor, president, Marco Island Historical Society “So many lives of artists are made possible, or at least made easier, by the support of someone else making the dinner and tending to the children while the singular experience of Mary Ann Carroll, Highwaywoman, related in this book reveals an artist overcoming the institutional challenges of race and gender while tending to the daily chores.”—Jean Ellen Wilson, author of *Legendary Locals of Fort Pierce* In the years since the art world discovered them, much has been made of the Highwaymen—the loosely knit band of African American painters whose edenic Florida landscapes, created with inexpensive materials and sold out of their cars, “shaped the state's popular image as much as oranges and alligators” (New York

Times). But lost in the legends surrounding the group is the mesmerizing story of Mary Ann Carroll, the only female “Highwayman.” In 1957, sixteen-year-old Carroll met Harold Newton, later dubbed the original Highwayman. He was painting a landscape along the side of the road. There were red flames on his car. Yet what shocked the young African American girl most of all was discovering a black man who didn't work in the orange groves, who made a living off of his paintings. It wasn't long before she was creating and selling her own landscapes, and the other Highwaymen, taking note of her startling use of color, welcomed her into the fold. Carroll sold her first painting at eighteen—remarkable for any young artist, unheard of for a black woman in the South. Like her Highwaymen brethren, she travelled across the state, selling her art at hotels, offices, and restaurants where she was not allowed to drink, eat, or even sit. If the Highwaymen faced discrimination at every door they knocked on, then the challenges—and dangers—were magnified for Carroll. She took pride in always having her pristine Buick gassed and ready to go and her small handgun cleaned and ready to use. After years of virtual obscurity, Carroll was invited to the First Lady's Luncheon in 2011, where she presented a painting of her iconic poinciana to Michelle Obama. Today, she is pastor of the Foundation Revival Center in Fort Pierce, is an accomplished artist and musician, and still paints and exhibits her work widely. Mary Ann Carroll is the never-before-told story of a black female artist's hard-fought journey to provide for her family while also making a name for herself in a man's world.

Harold Newton Gary Monroe 2018-10-09 "The Florida landscape is a drama composed of light, color, and form that hints at dark, primordial forces. Perhaps no artist has captured that dichotomy better and more prolifically than Harold Newton. Like the other young black artist who would later become known as the Highwaymen, Newton was painting his way out of the citrus groves, the packing houses, and Jim Crow laws that fueled the despair of African Americans in 1950s Florida. As the first Highwayman -- and in classical terms the best -- Newton's paintings are among the most highly prized. This volume includes reminiscences from relatives, customers, and Highwaymen, combining the little-known story of Harold Newton's life with an exquisite selection of his paintings. Author Gary Monroe explores the enduring appeal of this pivotal artist and provides a glimpse of mid-century African American life in the Indian River area that gave birth to the movement."--Back cover.

The Color Bind Erica Gabrielle Foldy 2014-02-28 Since the 1960s, the dominant model for fostering diversity and inclusion in the United States has been the “color blind” approach, which emphasizes similarity and assimilation and insists that people should be understood as individuals, not as members of racial or cultural groups. This approach is especially prevalent in the workplace, where discussions about race and ethnicity are considered taboo. Yet, as widespread as “color blindness” has become, many studies show that the practice has damaging

repercussions, including reinforcing the existing racial hierarchy by ignoring the significance of racism and discrimination. In *The Color Bind*, workplace experts Erica Foldy and Tamara Buckley investigate race relations in office settings, looking at how both color blindness and what they call “color cognizance” have profound effects on the ways coworkers think and interact with each other. Based on an intensive two-and-a-half-year study of employees at a child welfare agency, *The Color Bind* shows how color cognizance—the practice of recognizing the profound impact of race and ethnicity on life experiences while affirming the importance of racial diversity—can help workers move beyond silence on the issue of race toward more inclusive workplace practices. Drawing from existing psychological and sociological research that demonstrates the success of color-cognizant approaches in dyads, workgroups and organizations, Foldy and Buckley analyzed the behavior of work teams within a child protection agency. The behaviors of three teams in particular reveal the factors that enable color cognizance to flourish. While two of the teams largely avoided explicitly discussing race, one group, “Team North,” openly talked about race and ethnicity in team meetings. By acknowledging these differences when discussing how to work with their clients and with each other, the members of Team North were able to dig into challenges related to race and culture instead of avoiding them. The key to achieving color cognizance within the group was twofold: It required both the presence of at least a few members who were already color cognizant, as well as an environment in which all team members felt relatively safe and behaved in ways that strengthened learning, including productively resolving conflict and reflecting on their practice. *The Color Bind* provides a useful lens for policy makers, researchers and practitioners pursuing in a wide variety of goals, from addressing racial disparities in health and education to creating diverse and inclusive organizations to providing culturally competent services to clients and customers. By foregrounding open conversations about race and ethnicity, Foldy and Buckley show that institutions can transcend the color bind in order to better acknowledge and reflect the diverse populations they serve.
