City of Man Michael Gerson 2010-10-01 An era has ended. The political expression that most galvanized evangelicals during the past quarter-century, the Religious Right, is fading. What's ahead is unclear. Millions of faith-based voters still exist, and they continue to care deeply about hot-button issues like abortion and gay marriage, but the shape of their future political engagement remains to be formed. Into this uncertainty, former White House insiders Michael Gerson and Peter Wehner seek to call evangelicals toward a new kind of political engagement -- a kind that is better both for the church and the country, a kind that cannot be co-opted by either political party, a kind that avoids the historic mistakes of both the Religious Left and the Religious Right. Incisive, bold, and marked equally by pragmatism and idealism, Gerson and Wehner's new book has the potential to chart a new political future not just for values voters, but for the nation as a whole.

Country Dark Chris Offutt 2018-04-10 "A smart, rich country noir" from the acclaimed author Kentucky Straight and The Good Brother (Stewart O'Nan, bestselling author of Henry, Himself). Chris Offutt is an outstanding literary talent, whose work has been called "lean and brilliant" (The New York Times Book Review) and compared by reviewers to Tobias Wolff, Ernest Hemingway, and Raymond Carver. He's been awarded the Whiting Writers Award for Fiction/Nonfiction and the American Academy of Arts and Letters Fiction Award, among numerous other honors. His first work of fiction in nearly two decades, Country Dark is a taut, compelling novel set in rural Kentucky from the Korean War to 1970. Tucker, a young veteran, returns from war to work for a bootlegger. He falls in love and starts a family, and while the Tuckers don't have much, they have the love of their home and each other. But when his family is threatened, Tucker is pushed into violence, which changes everything. The story of people living off the land and by their wits in a backwoods Kentucky world of shine-runners and laborers whose social codes are every bit as nuanced as the British aristocracy, Country Dark is a novel that blends the best of Larry Brown and James M. Cain, with a noose tightening evermore around a man who just wants to protect those he loves. It reintroduces the vital and absolutely distinct voice of Chris Offutt, a voice we've been missing for years. "[A] fine homage to a pocket of the country that's as beautiful as it is prone to tragedy."—The Wall Street Journal "A pleasure all around."—Daniel Woodrell, author of Winter's Bone

Social Anthropology and Language Edwin Ardener 2013-10-08 Providing a critical framework for the consideration of the relationship between modern social anthropology and linguistics, this volume covers topics such as classification, symbolism, and structuralism. The relevance of the works of Saussure, Lévi-Strauss and Chomsky is considered. There are two case-studies: the first outlines a 'social history' of the succession of pidgins that are documented on the West African coast, ending with Pidgin English. The second analyzes the status of three language varieties used in a 'trilingual' community in the Carnian Alps. Originally published in 1971.

The Universe Within Neil Shubin 2013-01-08 In The Universe Within, Neil Shubin, one of the world's leading experts, reveals to us the extraordinary cosmic and evolutionary adventure of our own bodies. During the past 13.7 billion years (or so) since the Big Bang, our universe has evolved, stars have formed and died and our planet congealed from the matter in space. For aeons, the earth has circled the sun while mountains,

seas and entire continents have come and gone. Against this epic backdrop, humanity's place in the cosmos can look tiny and insignificant. But as Neil Shubin shows in this revelatory new book, the one place where universe, solar system and planet merge is inside your body. Shubin shows how the origin of the Moon is tied to our internal body clocks; how the vast amounts of water on Earth and inside all living creatures crossed the deepest stretches of space to us; how strange fluctuations in the orbits within our solar system have led to our irregular ice-ages; and how tiny imbalances in the chaos immediately after the Big Bang can explain why matter exists at all. Delving below the earth's surface and into the frozen Arctic, exploring the smallest atomic structures and the vast reaches of space, Neil Shubin uncovers a sublimely beautiful, almost magical truth: that in every one of us lies the most profound story of all - how we and our world came to be. 'Shubin is not only a distinguished scientist, but a wonderfully lucid and elegant writer; he is an irrepressibly enthusiastic teacher ... a science writer of the first rank', Oliver Sacks Neil Shubin is a palaeontologist in the great tradition of his mentors, Ernst Mayr and Stephen Jay Gould. He has discovered fossils around the world that have changed the way we think about many of the key transitions in evolution and has pioneered a new synthesis of expeditionary palaeontology, developmental genetics and genomics. He trained at Columbia, Harvard and Berkeley and is currently a Professor in the Department of Organismal Biology and Anatomy at the University of Chicago. His previous book is *Your Inner Fish: The amazing discovery of our 375-million-year-old ancestor*.

The New Quantum Mechanics George Birtwistle 2009-07-20 George Birtwistle (1877-1929) published *The New Quantum Mechanics* in 1928. His stated aim was to give a detailed account of work which had brought the relatively new subject of quantum mechanics to the fore in the previous few years. The earlier chapters give a restatement of Alfred Landé's theory of multiplets which reconciles it with the new mechanics which follow. Later chapters present the matrix theory of Heisenberg, the q-number theory of Dirac and the wave mechanics of Schroedinger, and synthesise new theories, statistics and controversies in the work of de Broglie, Bose, Einstein, Fermi and Dirac. The book gives a complete overview of the state of quantum mechanics at the end of the second decade of the twentieth century, making it a valuable benchmark for historians of science and mathematicians alike.

Yann Tiersen - Kerber Yann Tiersen 2021-07-01 (*Piano Solo Songbook*). "I think there is a similarity between the infinite big and the infinite smallness of everything," says Yann Tiersen. "It's the same experiment looking through a microscope as it is a telescope." Named after a chapel in a small village on the island of Ushant, Kerber marks a new chapter in critically-acclaimed composer Yann Tiersen's career. A chapter still true to Tiersen's nuanced and subtle approach but one that sets out with his most overtly electronic material to date. Beautifully textured, highly immersive and thoughtfully constructed, Tiersen creates an electronic world, providing an environment in which the piano source exists. A sense of place has often been a central theme in

Tiersen's work and here that is no different. Each track is tied to a place mapping out the immediate landscape that surrounds Tiersen's home, linking back to his thoughts on the possibilities of the infinite smallness. This official, exclusive folio is beautifully printed on high-quality, uncoated paper with striking graphic artwork. All seven pieces are presented for solo piano and follow an exclusive introduction to the project.

The Rejection of Consequentialism Samuel Scheffler 1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

Yvain Chretien de Troyes 1987-09-10 The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, Yvain, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. Yvain is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

Twilight of History Shlomo Sand 2017-05-02 The acclaimed and controversial historian turns his critical gaze on the writing of history today On its publication in 2009, Shlomo Sand's book *The Invention of the Jewish People* met with a storm of controversy. His demystifying approach to nationalist and Zionist historiography provoked much criticism from other professional historians, as well as praise. The furore gave him a privileged position to consider his academic discipline, which he reflects on here in *Twilight of History*. Drawing on four decades in the field, Sand takes a wider view and interrogates the study of history, whose origin lay in the need for a national ideology. Over the last few decades, traditional history has begun to fragment, yet only to give rise to a new role for historians as priests of official memory. Working in Israel has sharpened Sand's perspective, since the role of history as national myth is particularly salient in a country

where the Bible is treated as a source of historical fact. He asks such questions as: Is every historical narrative ideologically marked? Do political requirements and state power weigh down inordinately on historical research and teaching? And, in such conditions, can there be a morally neutral and "scientific" truth? Despite his trenchant criticism of academic history, Sand would still like to believe that the past can be understood without myth, and finds reasons for hope in the work of Max Weber and Georges Sorel.

Lancashire Lass Anna Jacobs 2001-02-01 'Another riveting book from Anna Jacobs' - 5-star reader review Seventeen-year-old Liza is happy working as a lady's maid - until her employers decide to emigrate and her father makes up his mind that she is to wed an older widower whom she detests. Determined to avoid a loveless marriage, Liza plans to run away. But when the widower rapes her to force her to marry him, she flees back to the family for whom she worked. She feels she has no choice but to go with them to Australia, and they all set out on the long voyage. On board ship, Liza discovers to her horror that she has fallen pregnant. Even if she can survive the journey, the demanding life of a settler in 1850s Western Australia will be made even harder by an illegitimate child. But Liza is to find that in addition to deprivation of the worst sort, Australia will offer her opportunities she could never have dreamt of back home in Lancashire.

Remembering the Troubles Jim Smyth 2017-03-30 The historian A. T. Q. Stewart once remarked that in Ireland all history is applied history—that is, the study of the past prosecutes political conflict by other means. Indeed, nearly twenty years after the 1998 Belfast Agreement, "dealing with the past" remains near the top of the political agenda in Northern Ireland. The essays in this volume, by leading experts in the fields of Irish and British history, politics, and international studies, explore the ways in which competing "social" or "collective memories" of the Northern Ireland "Troubles" continue to shape the post-conflict political landscape. The contributors to this volume embrace a diversity of perspectives: the Provisional Republican version of events, as well as that of its Official Republican rival; Loyalist understandings of the recent past as well as the British Army's authorized for-the-record account; the importance of commemoration and memorialization to Irish Republican culture; and the individual memory of one of the noncombatants swept up in the conflict. Tightly specific, sharply focused, and rich in local detail, these essays make a significant contribution to the burgeoning literature of history and memory. The book will interest students and scholars of Irish studies, contemporary British history, memory studies, conflict resolution, and political science.

Go Jump in the Pool! Gordon Korman 2013-09 Gordon Korman's classic, bestselling series celebrates its 35th anniversary! Macdonald Hall's ivy-covered buildings have housed and educated many fine young Canadians. But Bruno Walton and Boots O'Neal are far from being fine young Canadians. The roommates and best friends are nothing but trouble! Together they've snuck out after lights-out, swapped flags, kidnapped mascots . . . and that's only the beginning. When Bruno and Boots learn that Macdonald Hall is about to lose some of its best students to its arch-rival, York Academy, because the Hall doesn't have a swimming pool, they go on the warpath, determined to save the school. But their fundraising schemes turn to hilarious chaos! Join two of Gordon Korman's most memorable characters in seven side-splitting, rip-roaring adventures! Macdonald Hall is the series that started it all, and thirty-five years later it remains a must-read for old fans and new, the young -- and the young at heart. Braco Dimitrijevic. Catalogo della mostra (Saint-Etienne, 15 maggio-16 agosto 2009). Ediz. inglese e francese Braco Dimitrijevi? 2009 Braco Dimitrijevic gained international fame in the 1970s with his "Casual Passersby" series, in which gigantic photo-portraits of ordinary people were displayed on façades and billboards in European and American cities. In the early 1990s Dimitrijevic started a new cycle of portrait-installations, this time not using unknown people but artists, musicians and scientists better known for their achievements than for their names.

My Journey from Paris to Java Honoré de Balzac 2010 Honor de Balzac, the renowned French novelist and playwright, and one of the pioneers of literary realism, makes a short fantasy diversion to the mystical island of Java, where he, or rather the narrateur, encounters a deadly poison-breathing tree, civilised monkeys, love-sick sparrows and that epitome of Oriental desirability of his day ? the women of Java.

Southern Edwardseans Obbie Tyler Todd 2022-01-17 The founders and forerunners of the Southern Baptist Convention were fundamentally shaped by the thought of Puritan theologian Jonathan Edwards and his theological successors. While Baptists in the antebellum South boasted a different theological pedigree than Presbyterians or Congregationalists, and while they inhabited a Southern landscape unfamiliar to the bustling cities and tall forests of New England, they believed their similarities with Edwards far outweighed their differences. Like Edwards, these Baptists were revivalistic, Calvinistic, loosely confessional, and committed to practical divinity. In these four things, Southern Edwardseanism lived, moved, and had its being. In the nineteenth-century, when so many Presbyterians scoffed at Edwards's "innovation" and Methodists scorned his Calvinism, Baptists found in Edwards a man after their own heart. By 1845, at the first Southern Baptist Convention, Southern Edwardseans had laid the groundwork for a convention marked by the theology of Jonathan Edwards.
