Underworld London Catharine Arnold 2012-07-05 Beginning with an atmospheric account of Tyburn, we are set up for a grisly excursion through London as a city of ne'er do wells, taking in beheadings and brutality at the Tower, Elizabethan street crime, cutpurses and con-men, through to the Gordon Riots and Highway robbery of the 18th century and the rise of prisons, the police and the Victorian era of incarceration. As well as the crimes, Arnold also looks at the grotesque punishments meted out to those who transgressed the law throughout London's history - from the hangings, drawings and quarterings at Tyburn over 500 years to being boiled in oil at Smithfield. This popular historian also investigates the influence of London's criminal classes on the literature of the 19th and 20th centuries, and ends up with our old favourites, the Krays and Soho gangs of the 50s and 60s. London's crimes have changed over the centuries, both in method and execution. Underworld London traces these

developments, from the highway robberies of the eighteenth century, made possible by the constant traffic of wealthy merchants in and out of the city, to the beatings, slashings and poisonings of the Victorian era.

Under One Roof Barry Martin 2013-10-15 Sometimes people aren't who you think they are. Everyone knew what was going on in Ballard, Washington: developers were building a giant shopping mall, but a house belonging to a feisty octogenarian named Edith Wilson Macefield was in the way. They offered her a million dollars. She told them to take a hike. Everyone knew that Barry Martin, head of the construction project, was involved in the push to get her out of the house so that the project could proceed without further delay. Everyone was wrong. When Barry took the job as construction supervisor for the shopping mall that was being erected around Edith's little house, he determined to make things as easy for her as he could. He didn't expect that she'd ask him to drive her to a hair appointment—but he did offer to help, after all. And it was in that one small gesture that an unlikely friendship was sparked, one that changed them both forever. The story of Barry Martin and Edith Macefield is a tale of balance and compassion, of giving enough without giving too much, of helping our elderly loved ones through the tough times without taking away their dignity. In the end, Under One Roof is a tale of grace, and one from which all of us can take solace and strength. From Barry and Edith we have much to learn about love and letting go and, just possibly, about seeing through fading light to find great joy.

Rimbaud's Theatre of the Self James R. Lawler 1992 In a new interpretation of a poet who has swayed the course of modern poetry--in France and elsewhere--James Lawler focuses on what he demonstrates is the crux of Rimbaud's imagination: the masks and adopted personas with which he regularly tested his identity and his art. A drama emerges in Lawler's urbane and resourceful reading. The thinking, feeling, acting Drunken Boat is an early theatrical projection of the poet's self; the Inventor, the Memorialist, and the Ingénu assume distinct roles in his later verse. It is, however, in Illuminations and Une Saison en enfer that Rimbaud enacts most powerfully his grandiose dreams. Here the poet becomes Self Creator, Self-Critic, Self-Ironist; he takes the parts of Floodmaker, Oriental Storyteller, Dreamer, Lover; and he recounts his descent into Hell in the guise of a Confessor. In delineating and exploring the poet's "theatre of the self" Lawler shows us the tragic lucidity and the dramatic coherence of Rimbaud's work.

Mallarmé on Fashion Stéphane Mallarmé 2004-04 In 1874, Stéphane Mallarmé, the great French poet, undertook a highly idiosyncratic project--the publication of a fashion magazine called *La Dernière Mode* (The Latest Fashion)--that he almost single-handedly compiled. Using a variety of feminine and masculine pseudonyms to theorize about fashion and to advise on popular vacation destinations, home furnishings, and entertainment, Mallarmé created a spectacularly original work. The distinguishing feature of Mallarmé's magazine is that it explores the nature of fashion from the inside. While it is a genuine fashion magazine, it also satirizes the entire genre. Various theories have been entertained about the work: it

has been viewed as a prose poem, a hoax, and a cynical money-making venture. Furbank and Cain, however, argue that such guesses are hopelessly off the mark. Complete with the original artwork and a contextualizing introduction and commentary, this is the definitive translation of one of French literature's greatest enigmas.

Understanding Migraine and Other Headaches Stewart J. Tepper 2004-01-01 Health & SICKNESS -- Consumer Health --> In the United States, eighteen percent of women, six percent of men, and four percent of children suffer from migraine headaches. All races are affected, although, for reasons which are unknown, whites are more likely than African Americans to be afflicted with the condition, and Asian Americans are least often migraine sufferers. Migraine is an inherited condition-many families can trace it back for generations-and it has enormous economic and social consequences, both to individual sufferers, and to the society as a whole. The cost to the U.S. society alone is in excess of \$13 billion per year in lost productivity and in health care. Understanding Migraine and Other Headaches provides up-to-date information on the causes and diagnoses, as well as current preventive measures, effective treatments, and surgical procedures. The book gives an overview of every major type of headache, including the debilitating, nausea-inducing forms of migraine, episodic tension-type headaches (the most common form), chronic daily headaches, and more obscure head-aches such as trigeminal neuralgia and cluster headaches. This book is intended for those who are burdened by headaches as well as for their families, coworkers, employers, and friends. As such, it is written in a lucid and simple style that is accessible

both to lay readers and medical professionals. In the last two decades, revolutionary new migraine-specific medications have been developed. This book undertakes a comprehensive look at medications for acute "as needed" treatment of headaches and for preventing the onset of an attack. It offers guidelines for assessing headache pain, the level and type of medication needed, possible side effects, and drug effectiveness. Stewart J. Tepper is director of the New England Center for Headaches in Stamford, Connecticut.

Altogether, the broad scope and inclusive depth of this work make it an essential addition to the field of trauma assessment.

Letters to Roger Blin Jean Genet 1969 "Jean Genet's The Screens, hailed by many to be Genet's masterpiece, was staged in Paris in 1966 by the Jean-Louis Barrault-Madeleine Renaud Company. During the several months of rehearsals which Genet attended, he wrote a series of letters and notes to Roger Blin giving his views on every aspect of the staging of The Screens. His comments deal with the details of that play and that production, but also transcend them. What the book adds up to is a precise and fascinating compilation of Jean Genet's concept of the theater."--Page 4 of cover.

The Shifting Point, 1946-1987 Peter Brook 1994 Originally published: New York: Harper & Row, 1987.

Rhapsody For The Theatre Alain Badiou 2013-09-10 For Alain Badiou, theatre—unlike cinema—is the place for the staging of a truly emancipatory collective subject. In this sense theatre is, of all the arts, the one strictly homologous to politics: both theatre and politics depend on a limited set of texts or statements, collectively enacted by a group of actors or militants, which put a limit on the excessive power of the state. This explains why the history of theatre has always been inseparable from a history of state repression and censorship. This definitive collection includes not only Badiou's pamphlet Rhapsody for the Theatre but also essays on Jean-Paul Sartre, on the political destiny of contemporary theatre, and on

Badiou's own work as a playwright, as author of the Ahmed Tetralogy.

Under the Pergola Catharine Savage Brosman 2011-09-02 Always spirited and elegant, by turns witty and meditative, Catharine Savage Brosman's *Under the Pergola* contemplates Louisiana, past and present, before traveling a broader path that crosses Colorado landscapes and the island of Sicily. In her eighth collection of poems, Brosman evokes the Pelican State's trees, birds, rivers, swamps, bayous, New Orleans scenes, historic houses, and colorful characters. She also recounts, in free verse, formal verse, and one prose poem, the "misdeeds of Katrina" as she and others experienced them. Other poems range widely, from reflections on writers Samuel Johnson, Paul Claudel, André Malraux, and James Dickey to quiet meditations on the American West, Odysseus, fruits and vegetables, and the recent "light years" of the poet's life -- which she characterizes as "silken... slipping smoothly off" like a gown.

Understanding Ron Rash John Lang 2014-08-13 In this first book-length analysis of Ron Rash's fiction and poetry, John Lang covers all of Rash's books published through 2013 and offers key insights about his aims, themes, literary techniques and allusions, and major literary influences. *Understanding Ron Rash* introduces readers to the major themes and literary techniques in Ron Rash's poetry and fiction in the fourteen books he has published through 2013. After a brief survey of Rash's life and career, five subsequent chapters examine his work by genre, following the chronology of his books' publication. Lang begins with Rash's first three collections of short fiction, examining their themes and style and interconnections. In an analysis of Rash's four volumes of poetry, Lang emphasizes both

their grounding in Appalachia and their universal appeal. Then an examination of his first three novels considers Rash's historical and ecological and religious concerns as well as his desire to preserve what is rapidly vanishing, including the region's vernacular language. Rash's best-known and most accomplished novel, *Serena*, with its vivid characters, is examined for its striking use of dramatic techniques, and varied literary allusions. After a study of his most recent novel, *The Cove*, Lang's critical study's returns to Rash's recent work in short fiction: his Frank O'Connor Award-winning *Burning Bright* and *Nothing Gold Can Stay*, both of which demonstrate his wide-ranging subject matter and characters as well as his incisive portrait of contemporary life in Appalachia and beyond. An extensive bibliography of primary and secondary materials by and about Rash concludes the book, making it especially useful to students and teachers who want to learn more about Rash's work.

Under Pressure Jen Schneider 2016-05-10 This book examines five rhetorical strategies used by the US coal industry to advance its interests in the face of growing economic and environmental pressures: industrial apocalyptic, corporate ventriloquism, technological shell game, hypocrite's trap, and energy utopia. The authors argue that these strategies appeal to and reinforce neoliberalism, a discourse and set of practices that privilege market rationality and individual freedom and responsibility above all else. As the coal industry has become the leading target and leverage point for those seeking more aggressive action to mitigate climate change, their corporate advocacy may foreshadow rhetorical strategies available to other fossil fuel industries as they manage similar economic and cultural shifts. The authors' analysis of coal's corporate advocacy also identifies contradictions and points of vulnerability in the organized resistance to climate action as well as the larger ideological formation of neoliberalism.
