Bilingualism and Identity Mercedes Niño-Murcia 2008-04-02 Sociolinguists have been pursuing connections between language and identity for several decades. But how are language and identity related in bilingualism and multilingualism? Mobilizing the most current methodology, this collection presents new research on language identity and bilingualism in three regions where Spanish coexists with other languages. The cases are Spanish-English contact in the United States, Spanish-indigenous language contact in Latin America, and Spanish-regional language contact in Spain. This is the first comparativist book to examine language and identity construction among bi- or multilingual speakers while keeping one of the languages constant. The sociolinguistic standing of Spanish varies among the three regions depending whether or not it is a language of prestige. Comparisons therefore afford a strong constructivist perspective on how linguistic ideologies affect bi/multilingual identity formation.

Cardiac Critical Care Arthur L. Riba 2007 Incredible advances have been made in the management of a variety of cardiac problems during the past several years and this new issue of Critical Care Clinics seeks to illustrate a diverse sampling of some of those advancements. This issue, Guest Edited by Arthur Riba, explores such important topics as Cardiogenic Shock, Acute Valvular Insufficiency, Atrial

Fibrillation, and Critical Care Imaging. Exciting topics such as New Interventional Devices in the Acute Cardiac Care Setting are also discussed. Every day we see new advancements in the field of Cardiac Critical Care, which makes this new issue of Critical Care Clinics a must have for anyone in the clinical field.

Radiation Risks in Perspective Kenneth L. Mossman 2006-10-20 Public misperception of radiological risk consistently directs limited resources toward managing minimal or even phantom risks at great cost to government and industry with no measurable benefit to overall public health. The public's inability to comprehend small theoretical risks arrived at through inherently uncertain formulae, coupled with an ir

Dialogue in Spanish Dale April Koike 2010 "Dialogue in Spanish" provides a strong theoretical and empirical foundation for the study of dialogue. This edited collection of twelve original studies contributes to a broad comprehension of dialogue in two general contexts: personal interactions among friends and family; and public speech, such as political debates, medical interviews, court translations and service encounters. The studies, written by authors from Canada, Mexico, Spain, Sweden, the United States and Venezuela, present an in-depth look at issues and elements of dialogue such as irony, narrativity, discourse markers, coherence, conflict and expectations. Background research on dialogue grounds the articles in such areas as discourse analysis, pragmatics, philosophy, sociology, anthropology and linguistics. The book will prove useful to those who study conversational interaction, pragmatics, and discourse analysis as applied to various functions and contexts, and it will be of particular interest to researchers and students of linguistics, anthropology, sociology, philosophy, communications and education.

The Ruins of Us Keija Parssinen 2012-01-17 The Ruins of Us is a compelling, timely debut novel that explores the loneliness of expatriate life and the dangers of intolerance, as well as the things we'll do for love. More than two decades after moving to Saudi Arabia and marrying powerful Abdullah Baylani, American-born Rosalie learns that her husband has taken a second wife. That discovery plunges their family into chaos as Rosalie grapples with leaving the country, her life, and her family behind. Meanwhile, Abdullah and Rosalie's consuming personal entanglements blind them to the crisis approaching their sixteen-year-old son, Faisal, whose deepening resentment toward their lifestyle has led to his involvement with a controversial sheikh. When Faisal makes a choice that could destroy everything his embattled family holds dear, they all must confront difficult truths as they fight to preserve what remains of their world. The Ruins of Us is a timely story about intolerance, family, and the injustices we endure for love that heralds the arrival of an extraordinary new voice in contemporary fiction.

Destination Marketing Steven Pike 2012-08-06 The tourism market is fiercely competitive. No other market place has as many brands competing for attention, and yet only a handful of countries account for 75% of the world's visitor arrivals. The other 200 or so are left to fight for a share of the remaining 25%. Therefore, destination marketers at city, state and national levels have arguably, a far more

challenging role than other services or consumer goods marketers. Destination Marketing: an integrated marketing communication approach focuses on the five core tenets of integrated marketing communications. These embody both the opportunities and challenges facing Destination Marketing Organisations (DMOs), and are: 1. Profitable customer relationships; 2. Enhancing stakeholder relationships; 3. Cross-functional processes; 4. Stimulating purposeful dialogue with customers; and 5. Generating message synergy The author seeks to provide a rationale for DMOs; to develop a structure, roles and goals of DMOs; to examine the key challenges and constraints facing DMOs; to impart a destination branding process; to develop a philosophy of integrated marketing communications; to lead the emergence of visitor and stakeholder relationship management; and to set forth options for performance measurement.

Lifelong Learning Jim Smith 1999 This book provides the first comprehensive picture of lifelong learning and the radical changes needed if it is to become the cultural norm. Clearly written and readily accessible, the book identifies the shifts in attitude and behaviour which are needed to establish a lifelong learning culture. Looking ahead over the next quarter of a century, Jim Smith and Andrea Spurling show how government and learning providers must fundamentally reassess their use of time, space and finance. But, more than that, they also offer a practical, comprehensive and robust strategy for lifelong learning. Through trenchant analysis based on research commissioned by The Lifelong Learning Foundation, this book shows ways of confronting difficult choices and realizing the aim of comprehensive lifelong learning.

The Silence of Goethe Josef Pieper 2009 "During the last months of the war, Josef Pieper saw the realization of a long-cherished plan to escape from the "lethal chaos" that was the Germany of that time, "plucked," he writes, "as was Habakkuk, by the hair of his head . . . to be planted into a realm of the most peaceful seclusion, whose borders and exists were, of course, controlled by armed sentries." There he made contact with a friend close-by, who possessed an amazing library, and Pieper hit upon the idea of reading the letters of Goethe from that library. Soon, however, he decided to read the entire Weimar edition of fifty volumes, which were brought to him in sequence, two or three at a time." "It was precisely in the seclusion, the limitation, the silence of Goethe that made the strongest impact on Pieper. Here was modern Germany's quintessential conversationalist intellectual, but the strength of his words came from the restraint behind them, even to the point of purposeful forgetting." --Book Jacket.

Romance Linguistics Dale Koike 1992 The first book published in the United States on Portuguese linguistics, Romance Linguistics presents the best recent work in the areas of phonology, morphology, syntax, pragmatics, and discourse.

Using DNA to Solve Cold Cases U.s. Department of Justice 2012-07-18 DNA has proven to be a powerful tool in the fight against crime. DNA evidence can identify suspects, convict the guilty, and exonerate the innocent. Throughout the Nation, criminal justice professionals are discovering that advancements in DNA technology are breathing new life into old, cold, or unsolved criminal cases. Evidence that was previously unsuitable for DNA testing because a biological sample was too small or degraded may now yield a DNA profile. Development of the Combined DNA Index System (CODIS) at the State and national levels enables law enforcement to aid investigations by effectively and efficiently identifying suspects and linking serial crimes to each other. The National Commission on the Future of DNA Evidence made clear, however, that we must dedicate more resources to empower law enforcement to use this technology quickly and effectively. Using DNA to Solve Cold Cases is intended for use by law enforcement and other criminal justice professionals who have the responsibility for reviewing and investigating unsolved cases. This report will provide basic information to assist agencies in the complex process of case review with a specific emphasis on using DNA evidence to solve previously unsolvable crimes. Although DNA is not the only forensic tool that can be valuable to unsolved case investigations, advancements in DNA technology and the success of DNA database systems have inspired law enforcement agencies throughout the country to reevaluate cold cases for DNA evidence. As law enforcement professionals progress through investigations, however, they should keep in mind the array of other technology advancements, such as improved ballistics and fingerprint databases, which may substantially advance a case beyond its original level.

The Compact Reader Jane E. Aaron 2002-07-01 From its well-chosen essays to its thorough editorial apparatus to its practical organization, The Compact Reader provides instructors with the fundamental support they need to get students writing purposefully. The distinctive dual organization -- rhetorical and thematic -- introduces students to essential strategies of writing while engaging them with brief readings on captivating topics. For the instructor who wants a concise, effective means for teaching students to think critically about the connection between form and content, The Compact Reader is the perfect choice.

Singing in Czech Timothy Cheek 2014-12-11 Timothy Cheek's revised edition of Singing in Czech: A Guide to Czech Lyric Diction and Vocal Repertoire, with its accompanying audio accessible online, builds on the original pioneering work of

2001 that set “a new and very welcome high standard for teaching lyric diction,” according to Notes: The Journal of the Music Library Association. It offers users updated information, important clarifications, and expanded repertoire in a more accessible, easier to use format. Singing in Czech is divided into two parts. Using IPA, the first part takes the reader systematically through each sound of the Czech language, enhanced by recordings of native Czech opera singers. Chapters cover the Czech vowels, consonants, rules of assimilation, approaches to singing double consonants, stress and length, Moravian dialect, and an introduction to singing in Slovak. Fine points of formal pronunciation have been clarified in this revised edition. In the second part, Cheek offers a thorough overview of Czech art song, expanded from the first edition. Texts to major song literature and opera excerpts by Smetana, Dvořák, Janáček, Martinů, and Haas, with timings, editions, word-for-word translations, idiomatic translations, and IPA transcriptions follow. In this revision, Cheek has included additional cycles by Dvořák and Martinů, and two new chapters on Czech female composers Vítězslava Kaprálová and Sylvie Bodorová. This revised edition of Singing in Czech is useful for all those who are interested and engaged in the performance of the rich Czech vocal repertoire.

Morning Glory Sarah Jio 2013-11-26 The New York Times bestselling author of Always imagines life on Boat Street, a floating community on Seattle’s Lake Union, home to people of artistic spirit who for decades protect the dark secret of one startling night in 1959. Fleeing an East Coast life marred by tragedy, Ada Santorini takes up residence on houseboat number seven on Boat Street in search of inspiration and new opportunities. When she discovers a trunk left behind by Penny Wentworth, a young newlywed who lived on the boat half a century earlier, she is immediately drawn into this long lost story. Ever-curious, Ada longs to know her predecessor’s fate, but does not suspect that Penny’s mysterious past and her own clouded future are destined to converge...

Anna Wu Weakland Anna Wu Weakland 1988 Catalog produced in conjunction with Anna Wu Weakland's exhibit at Stanford University Museum of Art from June 21-August 14, 1988. The work featured in the exhibit explores the art of Chinese calligraphy via a Western medium, the monotype. Weakland's art represents the fusion of her Eastern heritage with traditions of her adopted Western home. The catalog includes an introduction by Stanford University Professor, John D. LaPlante and a statement from the artist.

Français Interactif Karen Kelton 2019-08-15 This textbook includes all 13 chapters of Français interactif. It accompanies www.laits.utexas.edu/fi, the web-based French program developed and in use at the University of Texas since 2004, and its companion site, Tex's French Grammar (2000) www.laits.utexas.edu/tex/ Français interactif is an open access site, a free and open multimedia resources, which requires neither password nor fees. Français interactif has been funded and created by Liberal Arts Instructional Technology Services at the University of Texas, and is currently supported by COERLL, the Center for Open Educational

Resources and Language Learning UT-Austin, and the U.S. Department of Education Fund for the Improvement of Post-Secondary Education (FIPSE Grant P116B070251) as an example of the open access initiative.

International Classification of Functioning, Disability, and Health World Health Organization 2007 This publication is a derived version of the International Classification of Functioning, Disability and Health (ICF, WHO, 2001) designed to record characteristics of the developing child and the influence of environments surrounding the child. This derived version of the ICF can be used by providers, consumers and all those concerned with the health, education, and well being of children and youth. It provides a common and universal language for clinical, public health, and research applications to facilitate the documentation and measurement of health and disability in child and youth populations.--Publisher's description.

Pediatric Critical Care in Resource-Limited Settings Krishan Chugh 2019-07-11 Millions of children are dying each year with preventable and reversible critical illness, including circulatory shock and respiratory failure. According to the World Health Organization, in 2015, the under-five mortality rate in low-income countries was 76 deaths per 1000 live births – about 11 times the average rate in high-income countries (7 deaths per 1000 live births). There is limited data about the nature of the delivery of critical care in resource-limited regions. The care of critically ill children in low-resource settings is challenging, contributing factors include limitations in the existing infrastructure, lack of resources, and low numbers of appropriately trained healthcare workers. Meeting these challenges requires clinical evidence pertinent to the local settings, adequate number of well-trained personnel, quality improvement activities, and the ongoing development of preventative measures. In addition, approaches to prevent worsening critical illness in at-risk hospitalized patients are needed. We are presenting 15 state-of-the-art manuscripts from international experts, from all settings, involved in the care of critically ill children in resource-limited settings. This collection of manuscripts covers topics including education, research, clinical experience and infectious diseases. We hope that we are providing a window into the future of critical care delivery for all children around the world.

Global Tax Fairness Thomas Pogge 2016-02-04 This book addresses sixteen different reform proposals that are urgently needed to correct the fault lines in the international tax system as it exists today, and which deprive both developing and developed countries of critical tax resources. It offers clear and concrete ideas on how the reforms can be achieved and why they are important for a more just and equitable global system to prevail. The key to reducing the tax gap and consequent human rights deficit in poor countries is global financial transparency. Such transparency is essential to curbing illicit financial flows that drain less developed countries of capital and tax revenues, and are an impediment to sustainable development. A major break-through for financial transparency is now within reach. The policy reforms outlined in this book not only advance tax justice

but also protect human rights by curtailing illegal activity and making available more resources for development. While the reforms are realistic they require both political and an informed and engaged civil society that can put pressure on governments and policy makers to act.

The Cambridge Handbook of Linguistic Code-switching Barbara E. Bullock 2012-04-26 Code-switching - the alternating use of two languages in the same stretch of discourse by a bilingual speaker - is a dominant topic in the study of bilingualism and a phenomenon that generates a great deal of pointed discussion in the public domain. This handbook provides the most comprehensive guide to this bilingual phenomenon to date. Drawing on empirical data from a wide range of language pairings, the leading researchers in the study of bilingualism examine the linguistic, social and cognitive implications of code-switching in up-to-date and accessible survey chapters. The Cambridge Handbook of Linguistic Code-switching will serve as a vital resource for advanced undergraduate and graduate students, as a wide-ranging overview for linguists, psychologists and speech scientists and as an informative guide for educators interested in bilingual speech practices.

Estimating Market Value and Establishing Market Rent at Small Airports Aviation Management Consulting Group, Inc 2020 "Staff from smaller airports typically lack specialized expertise in the negotiation and development of airport property or the resources to hire consultants. ACRP Research Report 213 provides airport management, policymakers, and staff a resource for developing and leasing airport land and improvements, methodologies for determining market value and appropriate rents, and best practices for negotiating and re-evaluating current lease agreements. There are many factors that can go into the analysis, and this report reviews best practices in property development."--Foreword.

Untangling the Web Carl S. Blyth 2000-06-15

Advanced Heart Failure: from Pathophysiology to Clinical management, An Issue of Heart Failure Clinics, E-Book Giuseppe Pacileo 2021-09-16 This issue of Heart Failure Clinics, guest edited by Drs. Giuseppe Pacileo, Daniele Masarone, Francesco Grigioni and Luciano Potena, will cover key topics in Advanced Heart Failure: From Pathophysiology to Clinical Management. This issue is one of four issues selected each year by our series consulting editor, Dr. Eduardo Bossone. Topics discussed in this issue include (but are not limited to): Pathophysiology of advanced heart failure: what I need to know for clinical management?, Advanced heart failure: definition, epidemiology and clinical course, Echocardiography in advanced heart failure: beyond diagnosis, Disease modifier drugs in patients with advanced heart failure: How to optimize their use?, Congestion in patients with advanced heart failure: Assessment and treatment, Inotropes in patients with advanced heart failure: Not only palliative care, Cardiac resynchronization therapy and cardiac contractility modulation in patients with advanced heart failure: How to select the right candidate?, Mitral and tricuspid valves percutaneous repair in patients with advanced heart failure: Panacea, or Pandora's box?, Left ventricular assist device: Indication, timing and management, Listing criteria for heart

transplant: Role of cardiopulmonary exercise test and of prognostic scores, Right heart catheterization in patients with advanced heart failure: when to perform, how to interpret?, Advanced heart failure in special population: Cardiomyopathies, Advanced heart failure in special population: Pediatric age, Advanced heart failure in special population: Heart failure with preserved ejection fraction and Treatment of advanced heart failure: What future holds?. Provides in-depth, clinical reviews on advanced heart failure, providing actionable insights for clinical practice.

Presents the latest information on this timely, focused topic under the leadership of experienced editors in the field; Authors synthesize and distill the latest research and practice guidelines to create these timely topic-based reviews.

The Sociolinguistics of Foreign Language Classrooms Carl Stewart Blyth 2003 The popular AAUSC series of annual volumes for directors of university language programs strives to further scholarship in second language acquisition and teaching with regard to undergraduate programs with multisection courses.

Teaching assistant supervision, teaching assistant professional preparation, and the role of faculty and administrators in postsecondary institutions are some of the topics addressed.

They F*** You Up Oliver James 2010-12-20 Do your relationships tend to follow the same destructive pattern? Do you feel trapped by your family's expectations of you? Does your life seem overwhelmingly governed by jealousy or competitiveness or lack of confidence? In this ground-breaking book, clinical psychologist Oliver James shows that it is the way we were cared for in the first six years of life that has a crucial effect on who we are and how we behave. Nurture, in effect, shapes our very nature. James combines the latest scientific research with fascinating interviews to show that understanding your past is the first step to controlling your present.
