Overcome Jason Redman 2019-12-10 Retired Navy SEAL and New York Times bestselling author Jason Redman divulges how to triumph over adversity using proven Special Operations habits and mindsets. Adversity can often catch you by surprise and leave you struggling with what to do next. What if you could confront any adversity, from the biggest challenges -- the loss of your job, divorce, health issues, bankruptcy -- to normal daily challenges -- a late flight, a disappointing phone call, a missed promotion, a bad day -- and not just survive it, but thrive afterwards? Redman was horrifically wounded in Iraq in 2007 when he was shot at close range through the face and arm. After 40 surgeries, including extensive facial reconstruction and skin grafts, he came back from this experience stronger than ever -- despite carrying scars and injuries he will have for the rest of his life. Redman went on to launch two successful companies and speaks all over the country on how to build better leaders through his Overcome mindset. Overcome is based on extensive research and interviews with America's toughest warriors, including retired 4-star Admiral William McRaven, retired Navy SEAL Jocko Willink, retired 4-star General Stanley McChrystal, and others. In this book, Redman teaches: How to survive any life ambush How to move from defense to offense using the proactive techniques of SEAL teams How to strengthen your endurance during long-term trials How to rediscover and thrive in your life purpose How to lead your team (whether in business or family) to success How to compete with the top 1% in your field How to stay the course even when you want to quit And more Some people move through adversity and others fall underneath it. Learn how you can be counted among those who will Overcome. [Intelligent Projects Using Python](#) Santanu Pattanayak 2019-01-31 Implement machine learning and deep learning methodologies to build smart, cognitive AI projects using Python Key FeaturesA go-to guide to help you master AI algorithms and concepts8 real-world projects tackling different challenges in healthcare, e-commerce, and surveillanceUse TensorFlow, Keras, and other Python libraries to implement smart AI applicationsBook Description This book will be a perfect companion if you want to build insightful projects from leading AI domains using Python. The book covers detailed implementation of projects from all the core disciplines of AI. We start by covering the basics of how to create smart systems using machine learning and deep learning techniques. You will assimilate various neural network architectures such as CNN, RNN, LSTM, to solve critical new world challenges. You will learn to train a model to detect diabetic retinopathy conditions in the human eye and create an intelligent system for performing a video-to-text translation. You will use the transfer learning technique in the healthcare domain and implement style transfer using GANs. Later you will learn to build AI-based recommendation systems, a mobile app for sentiment analysis and a powerful chatbot for carrying customer services. You will implement AI techniques in the cybersecurity domain to generate Captchas. Later you will train and build autonomous vehicles to self-drive using reinforcement learning. You will be using libraries from the Python ecosystem such as TensorFlow, Keras and more to bring the core aspects of machine learning, deep learning, and AI. By the end of this book, you will be skilled to build your own smart models for tackling any kind of AI problems without any hassle. What you will learnBuild an intelligent machine translation system using seq-2-seq neural translation machinesCreate AI applications using GAN and deploy smart mobile apps using TensorFlowTranslate videos into text using CNN and RNNImplement smart AI Chatbots, and integrate and extend them in several domainsCreate smart reinforcement, learning-based applications using Q-LearningBreak and generate CAPTCHA using Deep Learning and Adversarial Learning Who this book is for This book is intended for data scientists, machine learning professionals, and deep learning practitioners who are ready to extend their knowledge and potential in AI. If you want to build real-life smart systems to play a crucial role in every complex domain, then this book is what you need. Knowledge of Python programming and a familiarity with basic machine learning and deep learning concepts are expected to help you get the most out of the book Back to the Family Art Smith 2007-03-11 Back to the Family is a companion to Art Smith's New York Times bestseller and James Beard award-winning cookbook, Back to the Table. Smith is the personal chef to Oprah Winfrey and a contributing editor to O Magazine. This book encourages readers to better understand the importance of valuing the ones you love through cooking and communing with food. Most importantly Back to the Family stresses the importance of recognizing old food traditions (family recipes, meals, memories, etc.) and the equal importance of creating new and healthier food traditions. More than 150 recipes and more than 140 photographs provide a wonderful evocative eating and reading experience.

That Winter Pamela Gillilan 1986 Pamela Gillilan was born in London in 1918, married in 1948 and moved to Cornwall in 1951. When she sat down to write her poem Come Away after the death of her husband David, she had written no poems for a quarter of a century. Then came a sequence of incredibly moving elegies. Other poems followed, and two years after starting to write again, she won the Cheltenham Festival poetry competition. Her first collection That Winter (Bloodaxe, 1986) was shortlisted for the Commonwealth Poetry Prize.

Musicians in Transit Matthew B. Karush 2016-12-02 In Musicians in Transit Matthew B. Karush examines the transnational careers of seven of the most influential Argentine musicians of the twentieth century: Afro-Argentine swing guitarist Oscar Alemán, jazz saxophonist Gato Barbieri, composer Lalo Schifrin, tango innovator Astor Piazzolla, balada singer Sandro, folksinger Mercedes Sosa, and rock musician Gustavo Santaolalla. As active participants in the globalized music business, these artists interacted with musicians and audiences in the United States, Europe, and Latin America and contended with genre distinctions, marketing conventions, and ethnic stereotypes. By responding creatively to these constraints, they made innovative music that provided Argentines with new ways of understanding their nation's place in the world. Eventually, these musicians produced expressions of Latin identity that reverberated beyond Argentina, including a novel form of pop ballad; an anti-imperialist, revolutionary folk genre; and a style of rock built on a pastiche of Latin American and global genres. A website with links to recordings by each musician accompanies the book.

Petey (new cover) Ben Mikaelson 2010-06-22 In 1922, at the age of two, Petey's distraught parents commit him to the state's insane asylum, unaware that their son is actually suffering from severe cerebral palsy. Bound by his wheelchair and struggling to communicate with the people around him, Petey finds a way to remain kind and generous despite the horrific conditions in his new "home." Through the decades, he befriends several caretakers but is heartbroken when each eventually leaves him. Determined not to be hurt again, he vows to no longer let hope of lifelong friends and family torment him. That changes after he is moved into a nursing home and meets a young teen named Trevor Ladd; he sees something in the boy and decides to risk friendship one last time. Trevor, new to town and a bit of a loner, is at first weary of the old man in the wheelchair. But after hearing more of his story, Trevor learns that there is much more to Petey than meets the eye. Petey is a touching story of friendship, discovery, and the uplifting power of the human spirit.

[This Book Could Save Your Life](#) Graham Lawton 2020-05-12 You are what you eat. Food and diet have an enormous influence on your health and well-being, but eating the right amount of the right things - and not too much of the wrong things - isn't easy. But, as in most walks of life, knowledge is power. This book will empower you to eat healthily, lose weight, and sort the fads from the science facts. This is the New Scientist take on a "New Year, New You" book: an eye-opening and myth-busting guide to everything from sugar to superfoods, from fasting to eating like a caveman and from veganism to your gut microbiome. Forget faddy diet books or gimmicky exercise programs, this is what is scientifically proven to make you live longer and to be healthier and happier.

Postmodernist Fiction Brian McHale 2003-09-02 In this trenchant and lively study Brian McHale undertakes to construct a version of postmodernist fiction which encompasses forms as wide-ranging as North American metafiction, Latin American magic realism, the French New New Novel, concrete prose and science fiction. Considering a variety of theoretical approaches including those of Ingarden, Eco, Dolezel, Pavel, and Hrushovski, McHale shows that the common denominator is postmodernist fiction's ability to thrust its own ontological status into the foreground and to raise questions about the world

(or worlds) in which we live. Exploiting various theoretical approaches to literary ontology - those of Ingarden, Eco, Dolezel, Pavel, Hrushovski and others - and ranging widely over contemporary world literature, McHale assembles a comprehensive repertoire of postmodernist fiction's strategies of world-making and -unmaking.

A Language of Song Samuel Charters 2009-04-15 In *A Language of Song*, Samuel Charters—one of the pioneering collectors of African American music—writes of a trip to West Africa where he found "a gathering of cultures and a continuing history that lay behind the flood of musical expression [he] encountered everywhere . . . from Brazil to Cuba, to Trinidad, to New Orleans, to the Bahamas, to dance halls of west Louisiana and the great churches of Harlem." In this book, Charters takes readers along to those and other places, including Jamaica and the Georgia Sea Islands, as he recounts experiences from a half-century spent following, documenting, recording, and writing about the Africa-influenced music of the United States, Brazil, and the Caribbean. Each of the book's fourteen chapters is a vivid rendering of a particular location that Charters visited. While music is always his focus, the book is filled with details about individuals, history, landscape, and culture. In first-person narratives, Charters relates voyages including a trip to the St. Louis home of the legendary ragtime composer Scott Joplin and the journey to West Africa, where he met a man who performed an hours-long song about the Europeans' first colonial conquests in Gambia. Throughout the book, Charters traces the persistence of African musical culture despite slavery, as well as the influence of slaves' songs on subsequent musical forms. In evocative prose, he relates a lifetime of travel and research, listening to brass bands in New Orleans; investigating the emergence of reggae, ska, and rock-steady music in Jamaica's dancehalls; and exploring the history of Afro-Cuban music through the life of the jazz musician Bebo Valdés. *A Language of Song* is a unique expedition led by one of music's most observant and well-traveled explorers.

La Lucha for Cuba Miguel A. De La Torre 2003-10-10 For many in Miami's Cuban exile community, hating Fidel Castro is as natural as loving one's children. This hatred, Miguel De La Torre suggests, has in fact taken on religious significance. In *La Lucha for Cuba*, De La Torre shows how Exilic Cubans, a once marginalized group, have risen to power and privilege—distinguishing themselves from other Hispanic communities in the United States—and how religion has figured in their ascension. Through the lens of religion and culture, his work also unmasks and explores intra-Hispanic structures of oppression operating among Cubans in Miami. Miami Cubans use a religious expression, *la lucha*, or "the struggle," to justify the power and privilege they have achieved. Within the context of *la lucha*, De La Torre explores the religious dichotomy created between the "children of light" (Exilic Cubans) and the "children of darkness" (Resident Cubans). Examining the recent saga of the Elián González custody battle, he shows how the cultural construction of *la lucha* has become a distinctly Miami-style spirituality that makes *el exilio* (exile) the basis for religious reflection, understanding, and practice—and that conflates political mobilization with spiritual meaning in an ongoing confrontation with evil.

Roxy Music Jonathan Rigby 2008 Roxy Music's ambitious and sophisticated art rock built them a following far beyond the glam constituency from which they sprang. Almost embarrassed by an excess of talent, the original 1972 line-up was not only fronted by glam-rock icon Bryan Ferry but also included multifaceted genius Brian Eno, multi-instrumentalist Andrew MacKay, and killer guitarist Phil Manzanera. Subsequent shuffles of personnel and changes in musical direction are acutely documented in Jonathan Rigby's groundbreaking analysis of the band's prolific output. Complete with coverage of each band member's amazing solo work, a song-by-song analysis of everything from Virginia Plain to Avalon including album tracks, singles, and B-sides, exhaustive coverage of all the band's live performances from 1972 to 2007, and news of the long-awaited new album, this book will appeal to new fans and decades-long Roxy Music aficionados alike.

Radical Thought in Italy Michael Hardt 2006-10 Provides an original view of the potential for a radical democratic politics today that speaks not only to the Italian situation but also to a broadly international context. First, the essays settle accounts with the culture of cynicism, opportunism and fear that has come to permeate the Left. They then proceed to analyze the new difficulties and possibilities opened by current economic conditions and the crisis of the welfare state. Finally, the authors propose a series of new concepts that are helpful in rethinking revolution for our times. Contributors include Giorgio Agamben, Massimo De Carolis, Alisa Del Re, Augusto Illuminati, Maurizio Lazzarato, Antonio Negri, Franco Piperno, Marco Revelli, Rossana Rossanda, Carlo Vercellone and Adelino Zanini.

Afro-Latin American Studies Alejandro de la Fuente 2018-04-26 Alejandro de la Fuente and George Reid Andrews offer the first systematic, book-length survey of humanities and social science scholarship on the exciting field of Afro-Latin American studies. Organized by topic, these essays synthesize and present the current state of knowledge on a broad variety of topics, including Afro-Latin American music, religions, literature, art history, political thought, social movements, legal history, environmental history, and ideologies of racial inclusion. This volume connects the region's long history of slavery to the major political, social, cultural, and economic developments of the last two centuries. Written by leading scholars in each of those topics, the volume provides an introduction to the field of Afro-Latin American studies that is not available from any other source and reflects the disciplinary and thematic richness of this emerging field.
