Time: a8:30 . m. - 8:45 a. . Other children and adults present: Ms. Strum, Lakesha, and the rest of the class ...
Developmental Checklists. The following checklists allow an observer to check off which skills are being displayed by an individual child within the developmental area of interest. How to use these checklists: These checklists can used to by parents or teachers to screen an individual child's skills, by giving ticking 'Yes' or 'No' to a series of skills and then giving a rough indication of what is outside the developmental norm for that age.

The importance of an observational chart is simply

to mark whether or not a steady upward trend is occurring in a child's development. Such a chart should not be used to feed paranoia or excessive parenting concerns, as it cannot be stressed enough that each child is different and may develop at a slower or more interesting rate.

Observation Chart Templates - Printable and Editable

A bar chart (or graph) organises information into a graphic using bars of different lengths. The length of these bars is proportional to the size of the information they represent. For example, here is a vertical bar graph showing the popularity of different colours among a group of children.
