Confessions of a Male Gynecologist Andre Bellanger 2016-04-26 Curious about the world of obstetrics and gynecology? Want to know why a future doctor would want to specialize in gynecology? Or perhaps you'd just like a peek behind the curtain, so to speak -- and to hear some OBGYN secrets. If you're intrigued by any of these topics, or just want to know about women's health from an OBGYN who tells it like it is, this book is for you. "Confessions of a Male Gynecologist" reveals not only what your gynecologist is thinking when your feet are in the stirrups, but provides women with some frank advice. Dr. Bellanger provides readers with an education, gets on his high horse, and shares some unbelievable (and in many cases), "laugh-out-loud" stories. Here's what readers have to say ... "... full of insights you had no idea you wanted to know." "... informational, educational, and at times downright hysterical" "... answers all the questions you've ever had about your gynecologist" "... an entertaining experience." "... an insightful look into the complexity and realities of not only women's health, but the state of our health care system today."

Awopbopalooop Alopbamboom Nik Cohn 2016-06-13 Written in 1968 and revised in 1972, Awopbopalooop Alopbamboom was the first book to celebrate the language and the primal essence of rock 'n' roll. But it was much more than that. It was a cogent history of an unruly era, from the rise of Bill Haley to the death of Jimi Hendrix. And while telling outrageous tales, vividly describing the music, and cutting through the hype, Nik Cohn would engender a new literary form: rock criticism. In his book's wake, rock criticism has turned into a veritable industry, and the world of music has never been the same. Now this seminal history of rock 'n' roll's evolution is available once more—as riotous a spree as any in rock writing.

Narratives Unfolding Martha Langford 2017-07-18 Somewhere between global and local, the nation still lingers as a concept. National art histories continue to be written – some for the first time – while innovative methods and practices redraw the boundaries of these imagined communities. Narratives Unfolding considers the mobility of ideas, transnationalism, and entangled histories in essays that define new ways to see national art in ever-changing nations. Examining works that were designed to reclaim or rethink issues of territory and dispossession, home and exile, contributors to this volume demonstrate that the writing of national art histories is a vital project for intergenerational exchange of knowledge and its visual formations. Essays showcase revealing moments of modern and contemporary art history in Canada, Egypt, Iceland, India, Ireland, Israel/Palestine, Romania, Scotland, Turkey, and the United Arab Emirates, paying particular attention to the agency of institutions such as archives, art galleries, milestone exhibitions, and artist retreats. Old and emergent art cities, including Cairo, Dubai, New York, and Vancouver, are also examined in light of avant-gardism, cosmopolitanism, and migration. Narratives Unfolding is both a survey of current art historical approaches and their connection to the source: art-making and art experience happening somewhere.

Hollywood Highbrow Shyon Baumann 2018-06-05 Today's moviegoers and critics generally consider some Hollywood products—even some blockbusters—to be legitimate works of art. But during the first half century of motion pictures very few Americans would have thought to call an American movie "art." Up through the 1950s, American movies were regarded as a form of popular, even lower-class, entertainment. By the 1960s and 1970s, however, viewers were regularly judging Hollywood films by artistic criteria previously applied only to high art forms. In Hollywood Highbrow, Shyon Baumann for the first time tells how social and cultural forces radically changed the public's perceptions of American movies just as those forces were radically changing the movies themselves. The development in the United States of an appreciation of film as an art was, Baumann shows, the product of large changes in Hollywood and American society as a whole. With the postwar rise of television, American movie audiences shrank dramatically and Hollywood responded by appealing to richer and more educated viewers. Around the same time, European ideas about the director as artist, an easing of censorship, and the development of art-house cinemas, film festivals, and the academic field of film studies encouraged the idea that some American movies—and not just European ones—deserved to be considered art.
