Junior Theory Level 1 Joyce Ong 2011-01-01 Junior Theory Level 1 - a foundational music theory book specifically designed for children aged 4-7.

Jock Sturges Jock Sturges 2000 Building on his first monograph, Jock Sturges presents us with a new body of work that strikes the same chords of beauty and evolution that we find in his earlier images, but with a more intense dramatic and metaphoric intention. His new work often has an almost theatrical effect on the viewer -- seeming to emanate directly from the lives of the artist's models. The settings, the subjects, the sumptuous lighting will all be familiar to longtime admirers of Sturges' ongoing body of work. As his experience as a photographer has deepened and his relationships with his growing subjects spans decades of collaboration, both subjects and photographer have found more to say to each other. The new photographs include diptychs of clothed/nude models, pictures of true mutual trust, as well as never-before seen color photographs! This large format book takes direct aim at Jock Sturges' long-standing vision as his large format, 8x10 view-camera always demanded the large exhibition prints that were to follow. Thanks to the brilliant combination of computer-driven advances in modern printing techniques and the old-world attention to detail and craftsmanship, this book sets a new standard for the reproduction of artworks.

Forensic Ballistics in Court Brian J. Heard 2013-03-11 Forensic Ballistics in Court: Interpretation and Presentation of Firearms Evidence is an accessible introduction to firearms and ballistics evidence and how this is analysed and presented as evidence in a court of law. The book approaches the subject in terms of the realities of case work, opening with a clear and illustrated explanation of the correct nomenclature for various weapon types and their parts. Ammunition is also extensively covered, again with annotated illustrations. Basic external and terminal ballistics, wounding capabilities are likewise covered to give an overview of the subject. A key aspect of the book covers the theory and philosophy behind striation matches and the associated statistics, how positive matches should be peer reviewed and the importance accreditation has on this subject. Gunshot residue formation and identification and the various methods used in its analysis are reviewed in depth. This includes a critical examination of the pros and cons of each type of examination and the evidential weight which can be applied to each method. Accessible and reader-friendly introduction to firearms and ballistics. Clarifies the limitations of firearms evidence. Extensive use of global case-studies throughout. Focus on the interpretation and assessment of the weight of firearms/ballistics evidence presented at court. Covers the importance of witness and accused statements and their interpretation in relation to the investigation under review. Includes coverage of gunshot residue collection, examination and interpretation and the potential for contamination of GSR samples. Includes numerous real life case studies that the author has dealt with over the past 45 years. Takes an applied approach to the subject.

Physical Sciences for NGSS Dr Tracey Greenwood 2020-05 Physical Sciences for NGSS has been specifically written to meet the requirements of the Next Generation Science Standards (NGSS) for High School Physical Sciences (HS-PS). It encompasses all three dimensions of the standards (science and engineering practices, crosscutting concepts, and disciplinary core ideas), addressing the program content through a wide range of engaging student-focused activities and investigations. Through completion of these activities, students build a sound understanding of science and engineering practices, recognize and understand the concepts that link all domains of science, and build the knowledge base required to integrate the three dimensions of the standards to meet the program's performance expectations.

Shooting Incident Reconstruction Michael G. Haag 2011-06-29 Forensic scientists, law enforcement, and crime scene investigators are often tasked with reconstruction of events based on crime scene evidence, and the subsequent analysis of that evidence. The use and misuse of firearms to perpetrate crimes from theft to murder necessitates numerous invitations to reconstruct

shooting incidents. The discharge of firearms and the behavior of projectiles create many forms of physical evidence that, through proper testing and interpretation by a skilled forensic scientist, can establish what did and what did not occur. This book is generated from the authors' numerous years of conducting courses and seminars on the subject of shooting incident reconstruction. It seeks to thoroughly address matters from simple to complex in providing the reader an explanation of the factors surrounding ballistics, trajectory, and shooting scenes. The ultimate objectives of this unique book are to assist investigators, crime scene analysts, pathologists, ballistics experts, and lawyers to understand the terminology, science, and factors involved in reconstructing shooting incident events to solve forensic cases. The book will cover the full range of related topics including the range from which a firearm was discharged, the sequence of shots in a multiple discharge shooting incident, the position of a firearm at the moment of discharge, the position of a victim at the moment of impact, the probable flight path of a projectile, the manner in which a firearm was discharged and much more. Written by the most well-respected shooting scene and ballistics experts in the world Contains over 200 full-color diagrams and photographs that support and illustrate key concepts Case studies illustrate real-world application of technical concepts

A Dictionary of Selected Synonyms in the Principal Indo-European Languages Carl Darling Buck 1949 Originally published in 1949 and appearing now for the first time in a paperbound edition, Buck's Dictionary remains an indispensable tool for diachronic analysis of the Indo-European languages. Arranged according to the meaning of words, the work contains more than 1,000 groupings of synonyms from the principal Indo-European languages. Buck first tabulates the words describing a particular concept and then discusses their etymological and semantic history, tracing changes in meaning of the root words as well as presenting cases indicating which of the older forms have been replaced by expressions of colloquial or foreign origin.

Ballistic Imaging National Research Council 2008-10-10 Ballistic Imaging assesses the state of computer-based imaging technology in forensic firearms identification. The book evaluates the current law enforcement database of images of crime-related cartridge cases and bullets and recommends ways to improve the usefulness of the technology for suggesting leads in criminal investigations. It also advises against the construction of a national reference database that would include images from test-fires of every newly manufactured or imported firearm in the United States. The book also suggests further research on an alternate method for generating an investigative lead to the location where a gun was first sold: "microstamping," the direct imprinting of unique identifiers on firearm parts or ammunition.

'Twas the Week Before Christmas Olivia Miles 2013-12-01 A romantic inn... a white Christmas... hot cocoa by a roaring fire... it all adds up to a perfect holiday romance from Special Edition debut author Olivia Miles! Dear Holly, As I look around the inn, I see garland and mistletoe, colored lights and ornaments—everything I have always professed to despise. You were right to wonder why I would choose to visit the White Barn Inn. You were right about a lot of things. Since I met you, though, everything has changed. I've changed. And that's why I can't go on any longer without telling you the whole story. I don't know if you will ever be able to forgive me. But they say Christmas is a time for miracles. And you do believe in them, don't you? The question is, can you still believe in me? Max

Chinese Policing Kam C. Wong 2009 This book documents a systematic investigation into various aspects of policing in the People's Republic of China, including its scholarship, idea, origin, history, education, culture, reform, and theory. It approaches the study of Chinese policing from an indigenous perspective, informed by local empirical data. In proposing an innovative theory of community policing entitled «Police Power as a Social Resource Theory», the book seeks to look at crime as a personal problem, and police as a social resource, from the perspective of the people and not the state.

Lincoln Speaks to Leaders Gene Griessman 2009 Contemporary marketplace leaders outline leadership advice from one of America's most admired presidents--Abraham Lincoln--and explain how to apply those lessons to today's business environments.
