The New World Economy was the economic system that took shape on Earth, according to Tom Paris, it was around the 22nd century that "money went the way of the dinosaur." (VOY : " Dark Frontier ") The term "New World Economy" was only referenced by Tom Paris in "Dark Frontier"; in most discussions of the economy of the Federation, no specific name was used.

World Economics is dedicated to reducing the risks involved in Business, Financial and Government decisions that use what is arguably the most important information in the world - economic data. Data on GDP, Prices, Debt, Employment and many other economic variables are used daily to make crucial life changing decisions on government policy, and investment of all kinds, but are often of extremely poor quality.
