The Malacca Conspiracy Don Brown 2010 "Against the exotic background of the Straights of Malacca, a daring plot is hatched to finance a nuclear attack against American cities, and Zack and Diane are thrust into the midst of a sizzling race against the clock to foil the conspiracy before disaster strikes"--From publisher description.

In the Time of the Butterflies Julia Alvarez 2010-01-12 It is November 25, 1960, and three beautiful sisters have been found near their wrecked Jeep at the bottom of a 150-foot cliff on the north coast of the Dominican Republic. The official state newspaper reports their deaths as accidental. It does not mention that a fourth sister lives. Nor does it explain that the sisters were among the leading opponents of Gen. Rafael Leonidas Trujillo's dictatorship. It doesn't have to. Everybody knows of Las Mariposas—"The Butterflies." In this extraordinary novel, the voices of all four sisters—Minerva, Patria, María Teresa, and the survivor, Dedé—speak across the decades to tell their own stories, from hair ribbons and secret crushes to gunrunning and prison torture, and to describe the everyday horrors of life under Trujillo's rule. Through the art and magic of Julia Alvarez's imagination, the martyred Butterflies live again in this novel of courage and love, and the human cost of political oppression.

Instrumental James Rhodes 2017-02-07 "A mesmeric combination of vivid, keen, obsessive precision and raw, urgent energy." --Zoe Williams, Guardian "Thrilling and harrowing . . . Unsurpassed and unsurpassable." --Sunday Times James Rhodes's passion for music has been his lifeline--the thread that has held through a life encompassing abuse and turmoil. But whether listening to Rachmaninov on a loop as a traumatized teenager or discovering a Bach adagio while in a hospital ward,

he survived his demons by encounters with musical miracles. These--along with a chance encounter with a stranger--inspired him to become the renowned concert pianist he is today.

Instrumental is a memoir like no other: unapologetically candid, boldly outspoken, and surprisingly funny--shot through with a mordant wit, even in its darkest moments. A feature film adaptation of Rhodes's incredible story is now in development from Monumental Pictures and BBC Films, following a competitive bidding war involving major U.S. and U.K. companies. An impassioned tribute to the therapeutic powers of music, Instrumental also weaves in fascinating facts about how classical music actually works and about the extraordinary lives of some of the great composers. It explains why and how music has the potential to transform all of our lives.

Tyrant T.M. Frazier 2016-05-26 I. Remember. Everything. Only now I wish I didn't. When the fog is sucked away from my mind like smoke through a vacuum, the truth that has been beyond my reach for months finally reveals itself. But the relief I thought I would feel never comes, and I'm more afraid now than I was the morning I woke up handcuffed in King's bed. Because with the truth comes dark secrets I was never meant to know. I will put the lives of those I love most at risk if I let on that my memory has returned, or if I seek help from the heavily tattooed felon who owns me body and soul. I don't know if I'm strong enough to resist the magnetic pull toward King that grows stronger every day. He's already saved me in more ways than one. Now it's my turn to do whatever it takes to save him. Even if that means marrying someone else...

Brands of Faith Mara Einstein 2007-09-14 In a society overrun by commercial clutter, religion has become yet another product sold in the consumer marketplace, and faiths of all kinds must compete with a myriad of more entertaining and more convenient leisure activities. Brands of Faith argues that in order to compete effectively faiths have had to become brands – easily recognizable symbols and spokespeople with whom religious prospects can make immediate connections Mara Einstein shows how religious branding has expanded over the past twenty years to create a blended world of commerce and faith where the sacred becomes secular and the secular sacred. In a series of fascinating case studies of faith brands, she explores the significance of branded church courses, such as Alpha and The Purpose Driven Life, mega-churches, and the popularity of the televangelist Joel Olsteen and television presenter Oprah Winfrey, as well as the rise of Kaballah. She asks what the consequences of this religious marketing will be, and outlines the possible results of religious commercialism – good and bad. Repackaging religion – updating music, creating teen-targeted bibles – is justifiable and necessary. However, when the content becomes obscured, religion may lose its unique selling proposition – the very ability to raise us above the market.

The Death of Expertise Thomas M. Nichols 2017 A cult of anti-expertise sentiment has coincided with anti-intellectualism, resulting in massively viral yet poorly informed debates ranging from the anti-vaccination movement to attacks on GMOs. As Tom Nichols shows in The Death of Expertise, there are a number of reasons why this has occurred-ranging from easy access to Internet search engines to a customer satisfaction model within

higher education.

Postharvest Handling Robert L. Shewfelt 2012-12-02 Postharvest Handling: A Systems Approach introduces a new concept in the handling of fresh fruits and vegetable. Traditional treatments have been either physiologically based with an emphasis on biological tissue or technologically based with an emphasis on storage and handling. This book integrates all processes from production practices through consumer consumption with an emphasis on understanding market forces and providing fresh product that meets consumer expectations. Postharvest physiologists and technologists across the disciplines of agricultural economics, agricultural engineering, food science and horticulture along with handlers of minimally-processed products within the fresh produce fruit and vegetable processing industries will find this to be an invaluable source of information. Uses a systems approach that provides a unique perspective on the handling of fresh fruits and vegetables Designed with the applied perspective to complement the more basic perspectives provided in other treatments Provides the integrated, interdisciplinary perspective needed in research to improve the quality of fresh and minimally processed products Emphasizes that the design of handling systems should be market-driven rather than concentrating on narrow specifics

International Business Negotiations Pervez N. Ghauri 2003-09-30 Provides an understanding about the impact of culture and communication on international business negotiations. This work explores the problems faced by Western managers while doing business abroad and offers guidelines for international business negotiations. It also focuses on an important aspect of international business: negotiations.

The House on Mango Street Sandra Cisneros 2013-04-30 NATIONAL BESTSELLER • A coming-of-age classic, acclaimed by critics, beloved by readers of all ages, taught in schools and universities alike, and translated around the world—from the winner of the 2019 PEN/Nabokov Award for Achievement in

International Literature. *The House on Mango Street* is the remarkable story of Esperanza Cordero, a young Latina girl growing up in Chicago, inventing for herself who and what she will become. Told in a series of vignettes—sometimes heartbreaking, sometimes deeply joyous—Sandra Cisneros' masterpiece is a classic story of childhood and self-discovery. Few other books in our time have touched so many readers. “Cisneros draws on her rich [Latino] heritage ... and seduces with precise, spare prose, creat[ing] unforgettable characters we want to lift off the page. She is not only a gifted writer, but an absolutely essential one.” —The New York Times Book Review

Decentralized Governance and Accountability Jonathan A. Rodden 2019-02-28 Reviews recent lessons about decentralized governance and implications for future development programs and policies.

Barely Missing Everything Matt Mendez 2020-03-03 “There are moments when a story shakes you...Barely Missing Everything is one of those stories, and Mendez, a gifted storyteller with a distinct voice, is sure to bring a quake to the literary landscape.” —Jason Reynolds, New York Times bestselling author of *Long Way Down*

In the tradition of Jason Reynolds and Matt de la Peña, this heartbreaking, no-holds-barred debut novel told from three points of view explores how difficult it is to make it in life when you—your life, brown lives—don't matter. Juan has plans. He's going to get out of El Paso, Texas, on a basketball scholarship and make something of himself—or at least find something better than his mom Fabi's cruddy apartment, her string of loser boyfriends, and a dead dad. Basketball is going to be his ticket out, his ticket up. He just needs to make it happen. His best friend JD has plans, too. He's going to be a filmmaker one day, like Quentin Tarantino or Guillermo del Toro (NOT Steven Spielberg). He's got a camera and he's got passion—what else could he need? Fabi doesn't have a plan anymore. When you get pregnant at sixteen and have been stuck bartending to make ends meet for the past seventeen years, you

realize plans don't always pan out, and that there are some things you just can't plan for... Like Juan's run-in with the police, like a sprained ankle, and a tanking math grade that will likely ruin his chance at a scholarship. Like JD causing the implosion of his family. Like letters from a man named Mando on death row. Like finding out this man could be the father your mother said was dead. Soon Juan and JD are embarking on a Thelma and Louise—like road trip to visit Mando. Juan will finally meet his dad, JD has a perfect subject for his documentary, and Fabi is desperate to stop them. But, as we already know, there are some things you just can't plan for...

How Tobacco Smoke Causes Disease 2010 This report considers the biological and behavioral mechanisms that may underlie the pathogenicity of tobacco smoke. Many Surgeon General's reports have considered research findings on mechanisms in assessing the biological plausibility of associations observed in epidemiologic studies. Mechanisms of disease are important because they may provide plausibility, which is one of the guideline criteria for assessing evidence on causation. This report specifically reviews the evidence on the potential mechanisms by which smoking causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke. This evidence is relevant to understanding how smoking causes disease, to identifying those who may be particularly susceptible, and to assessing the potential risks of tobacco products.

Understanding Morphology Martin Haspelmath 2013-10-28 This new edition of *Understanding Morphology* has been fully revised in line with the latest research. It now includes 'big picture' questions to highlight central themes in morphology, as well as research exercises for each chapter. *Understanding Morphology* presents an introduction to the study of word structure that starts at the very beginning. Assuming no knowledge of the field of morphology on the part of the reader, the book presents a broad range of morphological phenomena from a wide variety of

languages. Starting with the core areas of inflection and derivation, the book presents the interfaces between morphology and syntax and between morphology and phonology. The synchronic study of word structure is covered, as are the phenomena of diachronic change, such as analogy and grammaticalization. Theories are presented clearly in accessible language with the main purpose of shedding light on the data, rather than as a goal in themselves. The authors consistently draw on the best research available, thus utilizing and discussing both functionalist and generative theoretical approaches. Each chapter includes a summary, suggestions for further reading, and exercises. As such this is the ideal book for both beginning students of linguistics, or anyone in a related discipline looking for a first introduction to morphology.

Writing in a Bilingual Program Carole Edelsky 1986 A year-long study of the writing development of 27 first through third graders in an English/Spanish bilingual program was conducted during the 1980-81 school year. Samples of the children's writing were collected at four intervals, coded for computer tallying, and analyzed in terms of code-switching, spelling, punctuation and segmentation, structural features, stylistic devices, and content. Additionally, the context in which the writing developed was evaluated by classroom observations, teacher interviews, review of familial backgrounds, and a survey of the community language situation. Myths about bilingual language proficiency, biliteracy, bilingual education, teaching writing, and learning to write are all countered by evidence presented in this study. In a discussion of implications, the concept of a whole language approach to writing instruction is supported, in which authentic and functional texts are offered to and produced by children. Examples of the children's writing with appropriate translations are given along with various tables. Informal follow-up information is presented in three epilogues dealing with changes in the researcher's commitment to the study's original writing theories, the writing of some students a year after the study; and a chronological outline

of the demise of the bilingual program used in the study. Appendices list interview questions used for teachers and aides and categories for coding the writing data. This book contains 134 references. (ALL)

On the Road Jack Kerouac 2002-12-31 The classic novel of freedom and the search for authenticity that defined a generation On the Road chronicles Jack Kerouac's years traveling the North American continent with his friend Neal Cassady, "a sideburned hero of the snowy West." As "Sal Paradise" and "Dean Moriarty," the two roam the country in a quest for self-knowledge and experience. Kerouac's love of America, his compassion for humanity, and his sense of language as jazz combine to make On the Road an inspirational work of lasting importance.

Kerouac's classic novel of freedom and longing defined what it meant to be "Beat" and has inspired every generation since its initial publication more than fifty years ago. This Penguin Classics edition contains an introduction by Ann Charters. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

American Indian Myths and Legends Richard Erdoes 2013-12-04 More than 160 tales from eighty tribal groups gives us a rich and lively panorama of the Native American mythic heritage. From across the continent comes tales of creation and love; heroes and war; animals, tricksters, and the end of the world. In addition to mining the best folkloric sources of the nineteenth century, the editors have also included a broad selection of contemporary Native American voices. With black-and-white illustrations throughout Selected and edited by Richard Erdoes and Alfonso

Ortiz Part of the Pantheon Fairy Tale and Folklore Library
SuperBetter Jane McGonigal 2015-09-15 An innovative guide to living gamefully, based on the program that has already helped nearly half a million people achieve remarkable personal growth

In 2009, internationally renowned game designer Jane McGonigal suffered a severe concussion. Unable to think clearly or work or even get out of bed, she became anxious and depressed, even suicidal. But rather than let herself sink further, she decided to get better by doing what she does best: she turned her recovery process into a resilience-building game. What started as a simple motivational exercise quickly became a set of rules for “post-traumatic growth” that she shared on her blog. These rules led to a digital game and a major research study with the National Institutes of Health. Today nearly half a million people have played SuperBetter to get stronger, happier, and healthier. But the life-changing ideas behind SuperBetter are much bigger than just one game. In this book, McGonigal reveals a decade’s worth of scientific research into the ways all games—including videogames, sports, and puzzles—change how we respond to stress, challenge, and pain. She explains how we can cultivate new powers of recovery and resilience in everyday life simply by adopting a more “gameful” mind-set. Being gameful means bringing the same psychological strengths we naturally display when we play games—such as optimism, creativity, courage, and determination—to real-world goals. Drawing on hundreds of studies, McGonigal shows that getting superbetter is as simple as tapping into the three core psychological strengths that games help you build:

- Your ability to control your attention, and therefore your thoughts and feelings
- Your power to turn anyone into a potential ally, and to strengthen your existing relationships
- Your natural capacity to motivate yourself and super-charge your heroic qualities, like willpower, compassion, and determination

SuperBetter contains nearly 100 playful challenges anyone can undertake in order to build these gameful strengths. It includes stories and data from

people who have used the SuperBetter method to get stronger in the face of illness, injury, and other major setbacks, as well as to achieve goals like losing weight, running a marathon, and finding a new job. As inspiring as it is down to earth, and grounded in rigorous research, SuperBetter is a proven game plan for a better life. You'll never say that something is "just a game" again.

Outliers Malcolm Gladwell 2008-11-18 From the bestselling author of *Blink* and *The Tipping Point*, Malcolm Gladwell's *Outliers: The Story of Success* overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. *Outliers* will change the way you think about your own life story, and about what makes us all unique. 'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' Guardian 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he writes seem like an impossible adventure' Observer 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' The Times

Pride Ibi Zoboi 2018-09-18 In a timely update of Jane Austen's *Pride and Prejudice*, National Book Award finalist Ibi Zoboi skillfully balances cultural identity, class, and gentrification against the heady magic of first love in her vibrant reimagining of this beloved classic. A smart, funny, gorgeous retelling starring all characters of color. Zuri Benitez has pride. Brooklyn pride, family pride, and pride in her Afro-Latino roots. But pride might not be enough to save her rapidly gentrifying neighborhood from

becoming unrecognizable. When the wealthy Darcy family moves in across the street, Zuri wants nothing to do with their two teenage sons, even as her older sister, Janae, starts to fall for the charming Ainsley. She especially can't stand the judgmental and arrogant Darius. Yet as Zuri and Darius are forced to find common ground, their initial dislike shifts into an unexpected understanding. But with four wild sisters pulling her in different directions, cute boy Warren vying for her attention, and college applications hovering on the horizon, Zuri fights to find her place in Bushwick's changing landscape, or lose it all. "Zoboi skillfully depicts the vicissitudes of teenage relationships, and Zuri's outsize pride and poetic sensibility make her a sympathetic teenager in a contemporary story about race, gentrification, and young love." (Publishers Weekly, "An Anti-Racist Children's and YA Reading List")

Good and Cheap Leanne Brown 2015-07-14 A perfect and irresistible idea: A cookbook filled with delicious, healthful recipes created for everyone on a tight budget. While studying food policy as a master's candidate at NYU, Leanne Brown asked a simple yet critical question: How well can a person eat on the \$4 a day given by SNAP, the U.S. government's Supplemental Nutrition Assistance Program informally known as food stamps? The answer is surprisingly well: Broiled Tilapia with Lime, Spicy Pulled Pork, Green Chile and Cheddar Quesadillas, Vegetable Jambalaya, Beet and Chickpea Salad—even desserts like Coconut Chocolate Cookies and Peach Coffee Cake. In addition to creating nutritious recipes that maximize every ingredient and use economical cooking methods, Ms. Brown gives tips on shopping; on creating pantry basics; on mastering certain staples—pizza dough, flour tortillas—and saucy extras that make everything taste better, like spice oil and tzatziki; and how to make fundamentally smart, healthful food choices. The idea for Good and Cheap is already proving itself. The author launched a Kickstarter campaign to self-publish and fund the buy one/give one model. Hundreds of thousands of viewers watched her video

and donated \$145,000, and national media are paying attention. Even high-profile chefs and food writers have taken note—like Mark Bittman, who retweeted the link to the campaign; Francis Lam, who called it “Terrific!”; and Michael Pollan, who cited it as a “cool kickstarter.” In the same way that TOMS turned inexpensive, stylish shoes into a larger do-good movement, Good and Cheap is poised to become a cookbook that every food lover with a conscience will embrace.

Thinking about Deterrence Air Univeristy Press 2014-09-01 With many scholars and analysts questioning the relevance of deterrence as a valid strategic concept, this volume moves beyond Cold War nuclear deterrence to show the many ways in which deterrence is applicable to contemporary security. It examines the possibility of applying deterrence theory and practice to space, to cyberspace, and against non-state actors. It also examines the role of nuclear deterrence in the twenty-first century and reaches surprising conclusions.

Theoretical Foundations of Health Education and Health Promotion Manoj Sharma 2012 "Introduces students to common theories from behavioral and social sciences that are currently being used in health education and promotion. Each discussion of theory is accompanied by a practical skill-building activity in the context of planning and evaluation and a set of application questions that will assist the student in mastering the application of the theory."--

Death in the Afternoon Ernest Hemingway 2002-07-25 Still considered one of the best books ever written about bullfighting, Death in the Afternoon is an impassioned look at the sport by one of its true aficionados. It reflects Hemingway's conviction that bullfighting was more than mere sport and reveals a rich source of inspiration for his art. The unrivaled drama of bullfighting, with its rigorous combination of athleticism and artistry, and its requisite display of grace under pressure, ignited Hemingway's imagination. Here he describes and explains the technical aspects of this dangerous ritual and "the emotional and spiritual

intensity and pure classic beauty that can be produced by a man, an animal, and a piece of scarlet serge draped on a stick." Seen through his eyes, bullfighting becomes a richly choreographed ballet, with performers who range from awkward amateurs to masters of great elegance and cunning. A fascinating look at the history and grandeur of bullfighting, *Death in the Afternoon* is also a deeper contemplation of the nature of cowardice and bravery, sport and tragedy, and is enlivened throughout by Hemingway's sharp commentary on life and literature.

Falling Away Penelope Douglas 2015-01-06 From the New Adult sensation and New York Times bestselling author of *Rival Jaxon* is the guy she's supposed to avoid. K.C. is the girl he won't let get away... K. C. Carter has always followed the rules—until this year, when a mistake leaves her the talk of her college campus and her carefully arranged life comes crashing to a halt. Now she's stuck in her small hometown for the summer to complete her court-ordered community service, and to make matters worse, trouble is living right next door. Jaxon Trent is the worst kind of temptation and exactly what K.C. was supposed to stay away from in high school. But he never forgot her. She was the one girl who wouldn't give him the time of day and the only one to ever say no. Fate has brought K.C. back into his life—except what he thought was a great twist of luck turns out to be too close for comfort. As they grow closer, he discovers that convincing K.C. to get out from her mother's shadow is hard, but revealing the darkest parts of his soul is nearly impossible....

Merriam-Webster's Vocabulary Builder Mary W. Cornog 1998 The ideal book for people who want to increase their word power. Thorough coverage of 1,200 words and 240 roots while introducing 2,300 words. The *Vocabulary Builder* is organized by Greek and Latin roots for effective study with nearly 250 new words and roots. Includes quizzes after each root discussion to test progress. A great study aid for students preparing to take standardized tests.

The Focus Project

Erik Qualman 2020-05

The Upside of Stress Kelly McGonigal 2016-05-10 Drawing from groundbreaking research, psychologist and award-winning teacher Kelly McGonigal, PhD, offers a surprising new view of stress—one that reveals the upside of stress, and shows us exactly how to capitalize on its benefits. You hear it all the time: stress causes heart disease; stress causes insomnia; stress is bad for you! But what if changing how you think about stress could make you happier, healthier, and better able to reach your goals? Combining exciting new research on resilience and mindset, Kelly McGonigal, PhD, proves that undergoing stress is not bad for you; it is undergoing stress while believing that stress is bad for you that makes it harmful. In fact, stress has many benefits, from giving us greater focus and energy, to strengthening our personal relationships. McGonigal shows readers how to cultivate a mindset that embraces stress, and activate the brain's natural ability to learn from challenging experiences. Both practical and life-changing, The Upside of Stress is not a guide to getting rid of stress, but a toolkit for getting better at it—by understanding, accepting, and leveraging it to your advantage.

The Saturday Evening Post 1957-09

Basic Issues in Police Performance 1982 Since the complexity of police services does not lend itself to standardized performance measures, measurement techniques should be designed to inform more about what police do and how they affect their communities. This report reviews conventional police measurement practices and offers ways to improve the management value of performance information. Traditional performance measurement has emphasized the measurement of individual departments' effectiveness in preventing crime. This approach fails to consider the broad range of other police duties, citizens' expectations of police, and how police activities produce social change. Police can be evaluated in terms of efficiency, effectiveness, equity, and accountability, but citizens disagree

about which of these performance criteria are the most important because community/police problems are too diverse. Instead of developing uniform, inflexible performance standards to apply globally to entire departments, evaluators should ask more detailed questions about common police processes and their results. Sketchy knowledge of how policing works now produces many hypotheses, but rarely standards worthy of emulation. Evaluators should develop better theories about police functions, obtain more reliable data, and control data collection costs with the aid of police managers so that measures inform departmental policymakers. Tables, diagrams, and 197 references are given. Appendixes include police services study data and a list of problem codes.

Nurse as Educator Susan Bacorn Bastable 2008 Designed to teach nurses about the development, motivational, and sociocultural differences that affect teaching and learning, this text combines theoretical and pragmatic content in a balanced, complete style. --from publisher description.

Engaged Fatherhood for Men, Families and Gender Equality Marc Grau (Policy scientist) 2022 This aim of this open access book is to launch an international, cross-disciplinary conversation on fatherhood engagement. By integrating perspective from three sectors -- Health, Social Policy, and Work in Organizations -- the book offers a novel perspective on the benefits of engaged fatherhood for men, for families, and for gender equality. The chapters are crafted to engaged broad audiences, including policy makers and organizational leaders, healthcare practitioners and fellow scholars, as well as families and their loved ones.
