One Faith James Innell Packer 2004 Jesus Christ promised a unity for his church. Are there now clear evidences of that within evangelicalism? Or are evangelicals fragmenting into ever smaller divisions?Renowned theologians J. I. Packer and Thomas C. Oden make the case that there is a significant theological consensus holding the evangelical church together. With copious citations from statements produced since 1950 that are widely representative of international evangelical faith, Packer and Oden let these witnesses speak for themselves.Packer and Oden survey several key documents of evangelicalism, particularly the Lausanne Covenant (1974), the Manila Manifesto (1989), The Gospel of Jesus Christ: An Evangelical Celebration (1999) and The Amsterdam Declaration (2000). Charting sixteen different theological themes, they also include references to numerous documents produced by evangelical theological seminaries and societies, mission agencies, parachurch organizations and assorted special convocations. More than informational, One Faith arises out of the hope that it may not only edify the evangelical church but also provide a potential foundation for a new ecumenism that gives glory to the God of our Lord Jesus Christ according to the good news of his gospel.

Supernormal Meg Jay 2017-11-14 Clinical psychologist and author of The Defining Decade, Meg Jay takes us into the world of the supernormal: those who soar to unexpected heights after childhood adversity. Whether it is the loss of a parent to death or divorce; bullying; alcoholism or drug abuse in the home; mental illness in a parent or a sibling; neglect; emotional, physical or sexual abuse; having a parent in jail; or growing up alongside domestic violence, nearly 75% of us experience adversity by the age of 20. But these experiences are often kept secret, as are our courageous battles to overcome them. Drawing on nearly two decades of work with clients and students, Jay tells the tale of ordinary people made extraordinary by these all-too-common experiences, everyday superheroes who have made a life out of dodging bullets and leaping over obstacles, even as they hide in plain sight as doctors, artists, entrepreneurs, lawyers, parents, activists, teachers, students and readers. She gives a voice to the supernormals among us as they reveal not only "How do they do it?" but also "How does it feel?" These powerful stories, and those of public figures from Andre Agassi to Jay Z, will show supernormals they are not alone but are, in fact, in good company. Marvelously researched and compassionately written, this exceptional book narrates the continuing saga that is resilience as it challenges us to consider whether -- and how -- the good wins out in the end.
