A Nation Within a Nation John Ernest 2011-04-16 John Ernest offers a comprehensive survey of the broad-ranging and influential African American organizations and networks formed in the North in the late eighteenth century through the end of the Civil War. He examines fraternal organizations, churches, conventions, mutual aid benefit and literary societies, educational organizations, newspapers, and magazines. Ernest argues these organizations demonstrate how African Americans self-definition was not solely determined by slavery as they tried to create organizations in the hope of creating a community.

A wedding to plan. A wedding to stop. What could go wrong? Cassie loves Henry. Henry loves Cassie. With a Tiffany ring on her finger, all that Cassie has left to do is plan the wedding. It should be so simple but when Henry pushes for a date, Cassie pulls back. Henry's wild, young cousin, Gem, has no such hesitations and is racing to the aisle at a sprint, determined to marry in the Cornish church where her parents were wed. But the family is set against it, and Cassie resolves to stop the wedding from going ahead. When Henry lands an expedition sailing the Pacific for the summer, Cassie decamps to Cornwall, hoping to find the peace of mind she needs to move forwards. But in the dunes and coves of the northern Cornish coast, she soon discovers the past isn't finished with her yet . . .

A Brief History of English Literature John Peck 2017-07-06 This new edition of an established text provides a succinct and up-to-date historical overview of the story of English literature. Focusing on how writing both reflects and challenges the periods in which it is produced, John Peck and Martin Coyle combine close readings of key texts with recent critical thinking on the interaction of literary works and culture. Providing a lively introductory guide to English literature from Beowulf to the present day, the authors write in their characteristically lucid and accessible style. A true masterpiece of clarity and compression, this is essential reading for undergraduate students coming across the vast areas of English literature for the first time and looking for a way of making critical sense of the texts being studied. In addition, the concise nature and narrative structure of this book makes it excellent reading for general readers. New to this Edition: - Revised chapter on twentieth century literature - Complete new chapter on twenty-first century literature - Updated Chronology and Further Reading section

Gandhi, CEO Alan Axelrod 2012-02 Gandhi, a CEO? Absolutely—and an incomparable example for our uncertain times, when we need leaders we can trust and admire. Not only was he a moral and intensely spiritual man, but also a supremely practical manager and a powerful agent for change, able to nurture the rebirth of an entire nation. Alan Axelrod looks at this much-studied figure in a way nobody has before, employing his fluid, engaging, and conversational style to bring each lesson to life through quotes and vivid examples from Gandhi's life. New in paperback.

The Way of the World Ron Suskind 2013-03-28 From Pulitzer Prize-winning journalist and bestselling author Ron Suskind comes a startling look at how America and the West lost their way, and at the struggles of their respective governments to reclaim the

moral authority on which their survival depends. From the White House to Downing Street, and from the fault-line countries of South Asia to the sands of Guantanamo, Suskind offers an astonishing story that connects world leaders to the forces waging today's shadow wars and to the next generation of global citizens. Tracking down truth and hope, Suskind delivers historic disclosures with this emotionally stirring and strikingly original portrait of the post 9-11 world.

**A Banker for All Seasons Tariq Ali 2008** In this never before published screenplay, A Banker for All Seasons dramatically presents the rise and fall of the Bank of Credit and Commerce International (BCCI), a third world bank that became an international empire. BCCI pioneered a mode of operation based on deception and included money laundering, arms trafficking, smuggling, and the covert sale of nuclear technologies. Tariq Ali was one of the first public voices to warn that the Bank was not all it seemed to be. Indeed, many of its own employees called BCCI the Bank of Crooks and Cheats Incorporated. The Bank finally imploded amidst a welter of scandal. By combining screenplay and political essay, Ali reveals how BCCI lasted so long, how financial regulators failed to see what was going on and how it prepared the way for other financial cataclysms in the decades to come.

**Napoleon, CEO Alan Axelrod 2011-12-01** The next in Alan Axelrod's engaging and popular CEO series spotlights a perfect subject: Napoleon, the brilliant military strategist who also laid the administrative and judicial foundations for much of Western Europe. Axelrod looks at this much-studied figure in a new way, exploring six areas that constitute the core of what made Napoleon a great leader: Audacity, Vision, Empathy, Strategy, Logistics, and Tactics. Within these areas Axelrod formulates approximately 60 lessons framed in military analogies, valuable for anyone who aspires to leadership, whether in the boardroom or the Oval Office.

**When A Lawyer Falls In Love Amrita Suresh 2014-07-22** A cheeky account of a chubby law graduate, as he waddles through life and law text books, in his rather futile attempts at wooing his pretty Gujarati classmate. Ankur Palekar, a third year law student believes his life is quite sorted out, except that he does not want to become a lawyer, has a family history of lunacy and has actually fallen in love. Vyas, Ankur's room mate and best friend, has no such problems – only a girl friend who emerges from a grave yard of all places and who insists on visiting him in his boy's hostel. A Malayali friend, whose car never starts and vocal chords never stop, a college festival being organized without the college and an arranged marriage which is more deranged than arranged are some of the other highlights. Funny, pacy, yet it has its moments, 'When a Lawyer falls in love....' Is the kind of book, that will make you laugh and cry, both for the same reasons!

**People Smart Melvin L. Silberman 2000** The key to communicating intelligently and effectively is presented here by two psychologists who show that "people skills" can be learned, like anything else. Original.

**Evidence-Based Medicine and the Changing Nature of Health Care Institute of Medicine 2008-09-06** Drawing on the work of the Roundtable on Evidence-Based Medicine, the 2007 IOM Annual Meeting assessed some of the rapidly occurring changes in health care related to new diagnostic and treatment tools, emerging genetic insights, the developments in information technology, and healthcare costs, and discussed the need for a stronger focus on evidence to ensure that the promise of scientific discovery and technological innovation is efficiently captured to provide the right care for the right patient at the right time. As new discoveries continue to expand the universe of medical interventions, treatments, and methods of care, the need for a more systematic approach to evidence development and application becomes increasingly critical. Without better information about the effectiveness of different treatment options, the resulting uncertainty can lead to the delivery of services that may be unnecessary, unproven, or even harmful. Improving the evidence-base for medicine holds great potential to increase the quality and efficiency of medical care. The Annual Meeting, held on October 8, 2007, brought together many of the nation's leading authorities on various aspects of the issues - both challenges and opportunities - to present their perspectives and engage in discussion with the IOM membership.

**1-Dimensional Metal Oxide Nanostructures Zainovia Lockman 2018-12-07** 1-D metal oxide nanostructures, especially those with semiconducting properties, have attracted much attention in recent years due to their potential and emerging applications, specifically in environment purification and energy devices. For these applications, there have been many efforts to grow 1-D nanostructures in the form of nanotubes, nanorods, and nanowires using processes that conserve energy, are cost effective, and can be scaled up for large-scale production. 1-Dimensional Metal Oxide Nanostructures gathers under one title the most recent development of oxide nanomaterials, especially those fabricated via oxidation process in the nanoscale field. Thermal and anodic oxidation processes are reviewed with an aim to offer an in-depth understanding of mechanisms of 1-D nanostructure formation, their characteristics, and limitations. Other more common methods are also discussed, including sol-gel, hydrothermal, and other templated methods. Important applications of 1-D nanostructures are then presented, focusing on oxides like zinc oxide, titanium oxide, zirconium oxide, copper oxide, and iron oxide. A chapter on carbon nanotubes hybrid with these oxides is also included as well as one on silicon oxide nanowires formation by local anodic oxidation process. Aimed at researchers, academics, and engineers working across the fields of nanotechnology, materials science, chemistry, physics, semiconductors, and environmental and biomedical engineering, this essential reference enables readers to grasp the main concepts of nanomaterials in 1-D: formation technique, characteristics, and uses. It also encourages practical innovations in nanotechnology, especially in curbing pressing global issues related to energy, environment, and security.

**What to Study John Paul Campbell 1982-10** The first step in any research is defining the problems to be studied and the questions to be asked. Campbell and his associates review and evaluate the kinds of problems currently being studied in organizational and industrial settings. The authors hope not to lay down impossible research ideals, but to describe a variety of strategies to enhance the probability of developing interesting and useful research.

**City of Shadows Celia Rees 2015-06-25** In the midsummer of his twelfth birthday, Davey, his twin cousins and his sister Kate, embark on a tour of the infamous underground city in Davey's hometown. As the tour progresses, Davey finds himself separated from the others, and inside an eerie chamber. Here he is drawn to a large and hazy-glassed mirror. In a moment, Davey's reflection blurs, and he finds himself back on the streets of the ancient city - but the residents are not of his time - they are ghosts, and some do not take kindly to those from 'the other side'. Davey encounters some friendly spirits, too - but they urge him to try to make it back to his own time, before an evil ghost crew discovers he is mortal. A frantic search for his own world begins, and Davey makes it just in time. But he senses there is unfinished business and, come Hallowe'en, the ghosts will be on the lookout for him - and this time they will be visiting his world . . .

**Management Richard L. Daft 2008-08-01** MANAGEMENT: THE NEW WORKPLACE, 6e International Edition provides an engaging survey of modern management practice that seamlessly integrates classic and contemporary principles. Rather than concentrating on large global enterprises, the text focuses on dynamic small to mid-sized "local" businesses and entrepreneurial issues, giving students valuable real-world insights and practical skills they can readily apply when beginning or continuing their careers. To help students deepen their understanding and hone their skills, numerous skill-building and application exercises appear in every chapter. MANAGEMENT: THE NEW WORKPLACE, 6e International Edition also features a streamlined format and impressive ancillary package that make it affordable, flexible, well-suited to any course, and effective for students of diverse backgrounds and interests.

**My Search for Ramanujan Ken Ono 2016-04-20** "The son of a prominent Japanese mathematician who came to the United States after World War II, Ken Ono was raised on a diet of high expectations and little praise. Rebelling against his pressure-cooker of a life, Ken determined to drop out of high school to follow his own path. To obtain his father's approval, he invoked the biography of the famous Indian mathematical prodigy Srinivasa Ramanujan, whom his father revered, who had twice flunked out of college because of his single-minded devotion to mathematics. Ono describes his rocky path through college and graduate school, interweaving Ramanujan's story with his own and telling how at key moments, he was inspired by Ramanujan and guided by mentors who encouraged him to pursue his interest in exploring Ramanujan's mathematical legacy. Picking up where others left off, beginning with the great English mathematician G.H. Hardy, who brought Ramanujan to Cambridge in 1914, Ono has devoted his mathematical career to understanding how in his short life, Ramanujan was able to discover so many deep mathematical truths, which Ramanujan believed had been sent to him as visions from a Hindu goddess. And it was Ramanujan who was ultimately the source of reconciliation between Ono and his parents. Ono's search for Ramanujan ranges over three continents and crosses paths with mathematicians whose lives span the globe and the entire twentieth century and beyond. Along the way, Ken made many

fascinating discoveries. The most important and surprising one of all was his own humanity."

Fusion Leadership Richard L. Daft 2000 Showing managers how to break out of the prison of hierarchical structure by emphasizing intellectual, emotional, and spiritual qualities, the authors creatively integrate new science and systems theory management ideas and present practical applications.
