
Bride of Lucky Luke

In the Old West, there's nothing strange about a stagecoach getting robbed. But a stagecoach vanishing without a trace, now Hired to protect the next train and its important passengers, Lucky Luke finds himself teaming up with a particularly irritated Calamity Jane - something of hers was on the missing vehicle. The two of them soon begin hearing rather unpleasant rumors: whispers that the disappearance was caused by a mysterious ghost!

Lucky Luke Vol. 72

Underneath these gang tattoos beats a heart three times a year. I'm a slow puncture death, a murderer, a rapist, and a number. I killed my best friend. Death doesn't stalk me, it walks ahead of me by twenty-eight paces. I went home after I sold my soul to the devils. I thought life would begin, I was a free man, instead within days the bullets fly and my last hope dies with the stain. There is nothing left to live for in this world. I belong to the 28s, I always belong to the 28s. The woman across the road judges me, she hates me, and takes every opportunity to let me know it. Yet, somehow, when grief etched our names down in the book of the dead, we dared be bold enough to find love. I'm not a good man, and I'm not pretty. I come from the Cape Flats where my life was reduced to a prison cell number. In all this ugliness I found beauty, innocence, and forgiveness. I can't forgive myself for the crimes I've committed, but I'll die trying to earn hers. In a world where nothing matters, she does.

Daisy Town

Process to Product is written by industry professional Brian Herskowitz, an award winning writer, producer, director with twenty-five years of teaching experience. The book guides the student writer through the process of screenwriting, simply and clearly, from the development of an idea through the finished, polished script. Easy to understand with in-depth examples and helpful exercises, this book puts the reader on the path to the best screenplay they can create.

Lucky Luke - Volume 76

Economic history states that money replaced a bartering system, yet there's still evidence to the contrary. This anthropologist Graeber presents a stunning reformation of this conventional wisdom. For more than 5000 years, humans have used elaborate credit systems to buy and sell goods. Since the beginning of the agrarian empire, humans have been divided into debtors and creditors. Through time, virtual credit money was replaced by gold and the system as a whole went into decline. This fascinating history is told for the first time.

Debt

A cowboy who shoots faster than his own shadow, his sarcastic horse - this is the Old West at its funniest. The fourth volume of the collected adventures of the Lonesome Cowboy in glorious hardback format!

Unbroken

The first edition of A Symphony of Silence: An Enlightened Vision was inspired by the desire to share with the world the needs of those living when the veil of ignorance is pulled back and the wonder of our essential nature is revealed. The voices emerging from these pages add vitality and validity to our shared experience of the silence of the transcendent. It is not something beyond our reach, but a reality that has always been with us, quietly awaiting an opportunity to unfold. In this second edition of A Symphony of Silence, several new voices are added to the compilation. A Catholic priest tells us of using TM as part of his inspired vision of the power of love to transform the lives of abused and destitute children from the street of South America. The founding director of an orphanage and school in Uganda, who likewise brings TM to children in need, describes to us his compassionate resolve to eradicate suffering within his community. A poet expresses for us in verse the joy of a seeker reaching for the light. A scientist and one of his colleagues shares us the power of TM to reduce stress and alleviate PTSD in the field of law enforcement. An actor, director, producer and entrepreneur, explores with us his innovative projects for inner city students through the TM program to their multicultural community, sharing with us delightful and very personal stories. A pioneering social activist brings us into the conversation he had with Maharishi in 1968 at a conference in Squaw Valley, California. He talked candidly with Maharishi about the need to introduce TM as a tool to bring inner freedom to the inner cities, helping to fulfill the quest for true civil rights. The voices in A Symphony of Silence create a glimpse into the vast impact that Maharishi has on many lives throughout the world.

Jet

NATIONAL BESTSELLER • National Book Award Finalist • Winner of the PEN/Faulkner Award The acclaimed author of When the Emperor Was Divine tells the story of a group of young women brought from Japan to San Francisco as “picture brides” a century ago in this “understated masterpiece that unfolds with great emotional power” (San Francisco Chronicle). In eight unforgettable sections, The Buddha in the Attic...
28 Boys
Follows the escapades of the Daltons after they escape from prison and are hunted by Lucky Luke and Rin Tin.

The Pillars of the Earth
Life is indeed a game that we all play to pass time; simply a series of days strung together, made up of how you planned or decided to spend the moments. Like any game how well it is played or whether life’s circumstances are interpreted accurately, then used to the best advantage, makes losers and winners to varying degrees. Senseless insanity is alive and well within the world. The world is awash with unary forces, that if not interject upon harming you do desire to become a destabilising force, either temporarily or over the long term. We are all participants in a charade, how life evolves and turns out is determined by how well the game is played. It is not wise or ideal to let life like a game of chance, a random roll of the dice that can determine unpredictable outcomes. The cost of success is the careful preparation of thought out concepts and ideas. As like any game preparation is critical: understanding the rules, knowing how to manipulate the dynamics at play efficiently to ones own advantage, understanding the intricacies of the rules and how to capitalise upon or create opportunities, whatever circumstances are present to maximise whatever potential exists to the best advantage. The opportunity in life is often limited by the inability to firstly comprehend them and secondly to fully utilise personal abilities to maximise the potential that is available. Don’t wait for special times to evolve, rather create them in accordance with your true desires to experience whatever is really within your potential to achieve. How you choose any game, the game of life has things that can be obtained, or things that can be lost. How the game is played, the value of the stakes, the opposing factions all come to dictate an outcome, be that favorable or lacking any semblance of being lucky. A life lived based upon any reliance on luck or fate being favorable is tempting only to the over optimistic, or those extremely lucky ones or who were fortunate in the past and believe that good fortune will continue in the future. While it takes resources to control the world, the control of your own specific world environment is required to achieve the optimal results from control to world and energy you exert, the persistence of that effort, all comes to determine whether and what degree what you want to ultimately achieve. In life you may win or lose at times, it’s basically just like playing a game; the right mentality is chancing the wheel of life by trusting and ensuring you will win just the same.

Rin Tin Can’s Inheritance
The man who shoots faster than his own shadow.

The Wolf at the End of the World
#2 NEW YORK TIMES BESTSELLER • NOW A MAJOR MOTION PICTURE • Look for special features inside. | join the Random House Reader’s Circle for author chats and more. In boyhood, Louis Zamperini was an incorrigible delinquent. As a teenager, he channelled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics. But when World War II began, the athlete became an airman, embarking on a journey that led to a doomed flight on a May afternoon in 1943. When his Army Air Forces bomber crashed bomber crashed into the Pacific Ocean, against all odds, Zamperini survived, adrift on a founding life raft. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, starvation, and enemy aircraft. And, beyond, a trial even greater. Driven to the limits of endurance, Zamperini would answer desperation with ingenuity; suffering with heroism, resilience, and humor; brutality with rebellion. His fate, whether triumph or tragedy, would be suspended on the fraying wire of His will. Appearing in paperback for the first time—with twenty arresting new photos and an extensive Q&A with the author—Unbroken is an unforgettable testament to the resilience of the human mind, body, and spirit, brought vividly to life by Seabiscuit author Laura Hillenbrand. Hailed as the top nonfiction book of the year by The New York Times Book Review for biography and the Indies Choice Adult Nonfiction Book of the Year award, Extraordinarily moving and inspiring, Unbroken tells the true story of one man’s incredible journey from high school track star to Olympic athlete to a four year journey to survival in the most hostile conditions of World War II. His story is one of indomitable strength and the will to survive against all odds.

Jet's Bride
There's only one kind of auction I want to win... mine.

Books of 2016, Non-Fiction
We face a frightening reality: today’s algorithms, software, and code are quietly but ruthlessly grading us. As Cathy O’Neil reveals in her urgent and indispensable book, the explosive effects of these algorithms are already determining whether you get a job, are approved for a mortgage, or even get a car loan. They are shaping the way we go to school, whether we get a car loan, how much we pay for health insurance—are being made not by humans, but by mathematical models. In this theory, lead you to greater fairness: Everyone is judged according to the same rules, and bias is eliminated. But as Cathy O’Neil reveals in this urgent and necessary book, reality looks quite different. Models are making decisions, and the assumption that these are good for us is revealed to be a delusion. The models being used today are opaque, unregulated, and uncontestable, even when they’re wrong. Most troubling, they reinforce discrimination: If a poor student can’t get a loan because a lending model deems him too risky (by virtue of his zip code), he’ll then cut off from the kind of education that could pull him out of poverty, and a vicious spiral ensues. Models are pipping up the lucky and punishing the downtrodden, creating a toxic cocktail for democracy. Call on modelers to take more responsibility for their creations. Welcome to the dark side of Big Data. Tracing the arc of a person’s life, O’Neil exposes the black box models that shape our future, both as individuals and as a society. These “weapons of math destruction” score teachers and students, sort’s sums, grant (or deny) loans, evaluate workers, target voters, set parole, and monitor our health. O’Neil calls on modelers to take more responsibility for their creations. These “weapons of math destruction” are targeting voters, set parole, and monitor our health. O’Neil calls on modelers to take more responsibility for their creations. These “weapons of math destruction”...
Distance is an illusion. We are lucky to live in an age where planes and communication technologies have made the world smaller than ever. There are no new opportunities galore. We are at the brink of a revolution that changes the way we live, work and play. And the good news is - you can be part of it. Life doesn't have to be a rat race. Why toil away in an office when you could be working from a hammock? Why postpone that round-the-world trip until your retirement? Why retire at all when work can be fun? A growing army of digital nomads are finding their own answers to these questions. Armed with a laptop, they follow their dreams and live unforgettable adventures. Are you ready to join in their footsteps and make the world your playground?

Process to Product

Kid Luck, still travelling with Old Timer, arrives in Mushroom City. After months in the wild, they’re both glad to find a place where they can have some fun! While the old gold miner has every intention to enjoy himself, though, he immediately sends Luke straight to school! A horrible sentence for the young cowboy-in-the-making, who is about to meet a quartet of already nasty little brats, and a pistolero with somewhat flexible morals!

On the Daltons' Trail

This is a valuable resource book through the Bible, explaining many customs practiced in Bible times. Not only is it easy to understand, but it is also filled with many helpful illustrations.

When He Was Wicked

One day Sophie comes home from school to find two questions in her mail: “Who are you?” and “Where does the world come from?” Before she knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder’s unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy.
